NO. 88.

Rich Cut Glass

We have a magnificent array of deeply cut, very brilliant cut glass, in elaborately designed patterns. These represent our most careful and critical selections of both English and American manufacturers. You would be surprised how very little money is required to buy one of our many smaller pieces that would add a tone to your table or sideboard. Some run as low as \$2.00.

If You Buy Cut Glass Here, It's the Best.

GRAVE OPENED.

Some Doubt as to Whether Remains of Patrick Emmet Were Interred at Dublin.

(Associated Press.)
Dublin, Aug. 6.—At the instigation of Mr. Robt. Emmet, of New York, an examination was made yesterday of the grave supposed to be that of Patrick Emmet. A skeleton was found to be that of a man six feet high, whereas Emmet was only five feet seven inches. A curious circumstance in connection with the examination was that the skull, instead of being found lying prone and attached to the trunk, was in an upright position, which, as Emmet was beheaded, may strengthen the theory that the remains were his. But the matter is still regarded as doubtful.

TOO LATE.

Daughter of Engineer Low Passed Away Before Her Father Reached Bedside.

(Associated Press.)
Chicago, Aug. 6.—To reach the sick bed of his young daughter, reported dying in Los Angeles, Cal., Henry E. Low, of New York, chief engineer of the United States Steel Corporation, is rushing across the western prairies on a \$4,000 special train that promises to beat all transcontinental records. Mr. Low left New York on Tuesday afternoon at 2:45 o'clock, and is due in Los Angeles at 11 o'clock on Friday evening, making the total time for the trip from the start three days and nine hours. Telegraphic messages have been sent directing that relays of locomotives be prepared, and that Mr. Low's train be given the right-of-way.

Passed Away.

Los Angeles, Cal., Aug. 6.—Mary Low, the 15-year-old daughter of Henry Low, who is speeding across the continent on a special train, died at an hotel here last night. When death came to the child, Mr. Low was passing through Kansas.

THE COWES REGATTA.

Five Yachts Started in Race For Prize of \$500 Presented By Town.

(Associated Press.)
Cowes, Aug. 6.—Five yachts started in today's race for a prize of \$500 presented by the town of Cowes. The start was made in a moderate breeze. Bona was first across the line, followed by Cleely, Theresa, the German Emperor's Meteor III, and Brynild. The Bona won the race.

THE SULTAN MAY EMPLOY ALBANIANS

TO SUPPRESS THE REVOLT IN MACEDONIA

Such Action Will Probably Lead to Massacres—Severe Measures to Be Adopted.

(Associated Press.)
Constantinople, Aug. 6.—Consular advice received here yesterday from Monastir, indicates that the situation in Macedonia will constantly grow worse. At a meeting of the ministers, it has been decided to adopt measures of extreme severity to suppress the revolution. It is reported that Albanian troops will be employed, in which event massacres are almost inevitable. The Bulgarian Patriarch was summoned to the Yildiz Palace on Wednesday, and urged to make a final appeal to his flock to deliver up their arms and thereby avoid bloodshed. The menacing attitude of the Kurds in Armenia is causing increasing alarm at Erzeroum, Bitlis and Kharpout. It is asserted in some quarters that the authorities are secretly arming the Kurds, while endeavoring to convict the Armenians of revolutionary intentions.

Bomb Throwing Active.

Salonica, European Turkey, Aug. 4.—A bridge at Eekison, which is 87 miles northwest of Salonica, and a railway storehouse at Bonitza have been dynamited. The telegraph line between Salonica and Monastir has been cut. The greatest uneasiness exists in the highest and best informed circles, and a renewal of the bomb throwing outrages are feared. The authorities are taking extraordinary precautions.

A dispatch last night from Constantinople announced that the Porte had abandoned all ideas of withdrawing the Turkish troops from Macedonia, and is making vigorous preparations to draft troops for the disturbed districts. A circular note had, it is stated, been sent out to warn the European powers of the Turkish government's intention. The note stated that the situation is very serious, and although it did not mention Bulgaria, the document is regarded as a menace to the Bulgarian government.

A TRUCE.

An Agreement Reached Between Canadian and United States Salmon Packers.

(Associated Press.)
Seattle, Aug. 6.—As a direct result of the treasury department's recent ruling permitting American salmon packers to recover a drawback of duties paid on foreign fish caught for export, the Canadian packers have sought a truce in the warfare going on near the border waters. A conference has just been held here between J. A. Russell, of Vancouver, B. C., and T. B. McGowan, of the Pacific Packing & Navigation Co., at which it was agreed that the Canadians would cease fishing in American waters and buying American fish, and the Americans, so far as the salmon combine is concerned, will keep out of Canadian waters. The Canadians for years have encouraged fishing in American waters for the canneries, but the duty on salmon prevented retaliation by the Americans. With the drawback allowed by the treasury the Americans were put in a position to retaliate.

WRECKED BY STORM.
One Man Killed and Many Injured By Collapse of Building at St. Louis.

St. Louis, Aug. 5.—One man was killed, between 25 and 30 injured, three or four fatally, by being blown from the world's fair buildings during the storm this afternoon. At 4:15 o'clock the hospitals on the grounds were filled and ambulances were called for from the city to take the wounded.

ANOTHER DEATH.

Chinaman Injured in Recent Cumberland Explosion Passes Away.

(Special to the Times.)
Nanaimo, Aug. 6.—Another Chinese miner injured in the recent colliery explosion at Cumberland succumbed to injuries last night, making a total of sixteen now dead.

TO SELECT CANDIDATE.

(Special to the Times.)
Nanaimo, Aug. 6.—Delegates from Comox and Cumberland met at Cumberland this evening to nominate a Liberal candidate. The names mentioned are, Dr. Millard, a local physician; H. Smith, a member of the miners' union, and F. McYoung, a Nanaimo lawyer. C. H. Bevoir Potts, a Cumberland lawyer, has also been suggested.

The Manitoba Construction Co., which is composed of Winnipeg's leading contractors, has secured the contract for extensive shop improvements to be made by the Canadian Pacific Railway Co. in their yards at Winnipeg. The work includes passenger carshops, locomotive shops, freight shops, machine shops and stores department.

BLOWN TO ATOMS.

Explosion of Nitro-Glycerine Magazine Killed Three Men and Destroyed Plant.

(Associated Press.)
Bluffton, Ind., Aug. 5.—The Empire-American Nitro-Glycerine Company's magazine here exploded this afternoon. The entire plant was destroyed and three employees were blown to pieces. It is also believed that a visitor who entered the plant just before the explosion was killed. Parts of the machinery were blown 500 feet. It is supposed the explosion was caused by a driver dropping a can. The explosion was heard for 50 miles, and so great was its force that a hole 100 by 150 feet and 20 feet deep marks the spot where the magazine stood. Pieces of flesh, machinery and building material were picked up in all directions. There seems to be no foundation for the report that a stranger entered the plant just before the explosion and lost his life. The property loss was \$20,000.

NEW RECORD.

Ulotma Makes Fast Time in 3 1/2 Furlongs Race at Seattle.

(Associated Press.)
Seattle, Aug. 6.—The world's running record for 3 1/2 furlongs has been beaten by one-quarter of a second by Ulotma, who ran the distance in 41 1/4 at the Meadows. The new record was made in the third race in which Judge Thomas, the world's record quarter horse, was one of the starters. Ulotma is by Salvador, out of Lightning, and made her initial appearance on a recognized track at the Meadows in June last. She is owned by W. F. Robb, of this city.

SALARIES OF MEMBERS OF THE COMMISSION

Resolutions Adopted in Dominion House—New Chief Counsel on Alaska Boundary Case.

(Special to the Times.)

Ottawa, Aug. 6.—In the House today the resolutions fixing the salaries of the commissioners and secretary of the railway commission was adopted. The chairman gets \$10,000, the other two commissioners \$8,000 each, the secretary \$4,000. Mr. Blair said that an expenditure of about \$100,000 would be necessary for the first year.

Mr. Blair asked if the report of the commission appointed to investigate the labor troubles in British Columbia would be presented to the House. Sir Wm. Mulock said that it would be as soon as printed. Going to Vienna. Hon. C. Sifton said that Dr. Bell, of the geological survey, was going to attend a conference in Vienna. If the congress would hold its next meeting in Canada the government will give a grant.

Sir Edward Henry Carson, solicitor-general of England, has been appointed chief counsel on the Alaska boundary case in the place of the Hon. Edward Blake, M. P. South Loughford, who retired on account of ill-health. It is not likely that there will be any adjournment of the argument. It will be proceeded with on September 3rd.

WHITAKER WRIGHT Still in Jail Awaiting Approval of Some of Proposed Surties For Bail.

(Associated Press.)
London, Aug. 6.—Whitaker Wright, the arrested promoter and director of the London & Globe Corporation, Ltd., the hearing of whose case was yesterday adjourned to August 24th, is to-day still in jail, some of the proposed surties for his bail of \$250,000 not having yet been approved.

CARNEGIE'S GIFT. He Explains His Object to Trustees Who Will Carry Out Scheme at Dunfermline.

(Associated Press.)
London, Aug. 6.—In handing over to fifteen representative citizens of his native town, Dunfermline, who were his guests at Skibo Castle early this week, a trust deed transferring to them \$2,500,000 in five per cent. bonds of the United States Steel Corporation, and Pittencrieff park, Andrew Carnegie explained the objects he had in view in these words:

"It is an experiment, the objects of which is to attempt to introduce into the monotonous lives of the toiling masses of Dunfermline more of sweetness and light, to give them, especially the young, some charm, some elevating conditions of life which their residence elsewhere would have denied, so that a child in his native town will feel, however he may have roamed, that simply by virtue of being such, his life has been made happier and better."

Mr. Carnegie said he had provided for this experiment in his will more than twenty years ago, but his retirement from business enabled him to put the scheme into operation during his lifetime. The problem set to the trustees was: "What can be done in towns to benefit the masses by money in the hands of the most public spirited citizens?" It was provided that good could be done. Mr. Carnegie exhorted the trustees not to be afraid of making mistakes, to try many things freely, but to discard just as freely, keeping in touch with the masses and constantly aiming to improve their tastes, tastes, and give Dunfermline something beyond what was possessed by other cities.

EMPEROR OPPOSED CARDINAL RAMPOLLA

RIGHT OF VETO WAS ENFORCED BY AUSTRIA

The New Pope's Reception of the Diplomatic Body Accredited to Holy See.

(Associated Press.)
New York, Aug. 6.—A special cable dispatch from Rome to the Tribune says that it is learned from an authoritative source that the much talked of right of veto in the conclave, by many considered no longer a right because it had fallen into disuse, was actually enforced by Austria last Sunday. Cardinal Rampolla stood far ahead of all others on the ballots, and would have been elected, when suddenly the conclave was thunderstruck by receiving a telegram direct from Emperor Francis Joseph saying that he exercised his veto absolutely against Cardinal Rampolla. The greater part of the Sacred College was much irritated, especially the French cardinals, who declared that they would not recognize the veto, but a night's rest brought better counsels, and the conclave decided that in the present position of the church in France, the Holy See could not fail to give heed to the protest. It was thought that the Austrian Emperor's dispatch might have been the result of the joint wishes of the triple alliance. This did not, however, allay the irritation of France, which found itself powerless.

Another Reception.

Rome, Aug. 6.—During one full hour this morning the bells of about five hundred churches were rung in honor of the election of Pius X., a welcome intimation of its kind and ordered by Cardinal Respighi, Vicar of Rome, who issued special instructions therefore. All the churches contemporaneously celebrated mass for the event.

The bell ringing served a purpose, that of heralding the great ceremony of the reception of the diplomatic body accredited to the Holy See. Rome has lately been surfeited with Vatican functions, but that of this morning was so striking that it held its own with others. The members of the Sacred College held a kind of informal reception. A procession was then formed. First came the Swiss guards, which gives a peculiar medieval splendor to all Papal gatherings, then the Palatin guard, followed in irregular ranks by the whole Pontifical court, the cardinals in all the gorgeousness of their scarlet robes and the bishops scarcely less striking in their purple. The Pope, in spotless white, his grey hair in harmony with the whole attire, and surrounded by the noble guard who always remain near his person, went on foot just as the others.

The procession having gained the Hall of Throne, where the members of the diplomatic body were gathered, Signor D'Antas, the Portuguese ambassador and dean of the corps, read in a clear voice the collective greetings of his colleagues, presenting their homage to the new Pope, and assuring him of their fidelity.

Pius X. answered with great cordiality, thanking them heartily for their good wishes. All then bowed his hand, and the Pontiff took this opportunity of speaking personally to each, showing a knowledge of the politics of the various countries, which surprised the diplomatic corps, the new Pontiff being credited with taking small interest in affairs outside Italy. It was another surprise to them to hear him speak French, if not fluently, at least with a certain readiness. Altogether, the whole audience gave promise of a new era of international cordiality at the Vatican.

Coronation Ceremony.

Rome, Aug. 6.—The coronation ceremony will be performed at St. Peter's on Sunday, according to a rite dating from the latter part of the fourteenth century. As the Pope enters the church a clerk of the Papal chapel holds up before him a red surmounted by a handful of flax. This is lighted, it flashes up for a moment and then dies out at once, as the chaplain chants "Holy Father, thus passeth away the world's glory." This is done three times. The mass is then begun as usual, but before the incensation of the altar "The blessing of the Pontiff elect" is pronounced by three cardinal bishops, each of whom recites a prayer for himself.

The coronation itself takes place after mass in the balcony over the porch of St. Peter's, overlooking the great piazza. The second cardinal deacon takes off the mitre, which until now the Pope has worn; and then the sepiol cardinal deacon (Maechi) places the tiara on his head.

Memorial to Pope.

Colorado Springs, Aug. 6.—At a session of the convention of the Western Negro Editors' Association here, a memorial to Pius X. was adopted. It says: "Since there are so many Catholics among the negroes of the United States, who in common with others of their race are subjected to unparalleled outrages upon the slightest provocation, involving the innocent as well as the guilty, we urge His Holiness to use his good offices among the Catholics of this country to preserve friendly relations between the races, and to break down the spirit of unfriendliness so prevalent among the labor unions, composed in a great measure of

Catholics, which in many instances deprive the negro of an opportunity to earn an honest living."

ANNUAL PICNIC.

Merchant and Journeymen Tailors Spent Enjoyable Day Up the Gorge.

What was perhaps one of the most successful picnics of the season was held up the Gorge yesterday. At 1:30 about 50 people were waiting on the wharf, a number travelled by the steam launch Ping Pong, and the remainder rowed up in boats. Shortly after two all were busy disembarking at Mrs. Marshall's, and by 2:30 they were on a field about 250 yards beyond the Victoria Gardens, which was kindly placed at their disposal by Mr. Johnson.

At 3 o'clock the picked teams of the merchants and journeymen respectively were in position; and Walter Graham, Victoria's veteran tailor, tossed the first ball.

The line-up was as follows:
Journemen. Merchants.
R. Pettigrew... Pitcher... A. Peden
Jas. Pettigrew... Catcher... J. Clark
H. Thomas... First Base... W. Mowat
E. Mackenzie... Second Base... H. Hunt
W. Thomas... Third Base... G. Sprinkling
Jas. Sprinkling... Short Stop... G. Redman
C. Cooper... Left Field... A. Thomas
P. Thomas... Centre Field... J. Grant
P. Linklater... Right Field... E. Schaper

The score was 21 to 7 in favor of the merchants. The battery on both sides, viz., R. Pettigrew and Jas. Pettigrew and Peden and Clark was very effective. Next on the programme were the races, which resulted as follows:

Seventy-five yards race for paint makers—1st, Miss C. Williams; 2nd, Miss N. Turner. Seventy-five yards for vest makers—1st, Miss K. Newbigging; 2nd, Miss M. Tranter. Girls' race—1st, Freta Hasoufrata; 2nd, E. Schaper. Fifty yards race—1st, Mrs. Manson; 2nd, Miss Newbigging. One hundred yards for merchants—1st, A. Peden; 2nd, H. Reid. One hundred yards for journeymen—1st, R. Pettigrew; 2nd, W. Thomas. Three-legged race—1st, Pettigrew and Mowat; 2nd, Peden and Reid.

After the races the committee in charge proceeded to make arrangements for supper. The party separated, some going boating, others swimming, etc. At 4 o'clock the bugle sounded for supper, and in a few minutes all were seated at a table loaded with every dainty the inner man could crave. Supper over the groups were photographed. Then the presentation of prizes took place, after which short speeches were delivered by President Fraser and Mr. Grant, of the Tailors' Union and Merchants' Association respectively.

This over the pleasure seekers proceeded to enjoy themselves in various ways. A number secured boats and indulged in rowing, while others played games until dark.

The Ping Pong made a special trip to the city at 9 p.m. The great credit is due to the committee and the ladies, whose successful and generous efforts were responsible for the enjoyable character of the event. The following is the committee: Chas. Cooper, Percy Thomas, Miss M. Barrett and Miss M. Sherreff.

ENTERTAINMENT TO-NIGHT.

Victoria West Dramatic Society Will Hold Rehearsal at Temple's Hall.

To-night and to-morrow evening an entertainment will be given in temples hall by the Victoria West Dramatic Society. A farce in one act, entitled "Hector," will be followed by a comedy-drama in four acts, entitled "Out West."

The characters in the former follows: Frederick Long, merchant, A. R. Colly; Louise, his wife, and considerably younger than he, Miss V. Sempie; Oscar Spencer, a young student, W. Budden; Jacob Einstein, a pawnbroker, A. W. Sempie; August, a servant, L. H. Leigh; Watson, a clerk, R. Sempie; Fanny, a chambermaid, Miss A. Droob; a messenger boy, Master Hugh Campbell. The cast for "Out West" is: Reginald Lewis, F. W. Waller; Wallace Merrick, L. H. Leigh; Jethro Putnam, A. W. Sempie; Major Rounds, W. Budden; John Ray, F. W. Jenkins; Jerry, R. Sempie; Mike Moriarty, H. Monteith; Joe Haskell, A. R. Colly; Lucille Ray, Miss A. Droob; Mrs. Stock, Miss V. Sempie; Claire Montague, Miss J. Leigh; Samantha Putnam, Miss J. McDonald.

SEA TRIAL.

The New Shamrock Led Across the Starting Line.

(Associated Press.)
New York, Aug. 6.—The Shamrocks today started on another sea trial. The course was set ten miles to windward, south southeast from Scotland lightship, and return. The starting time was: Shamrock III, 11:31:18; Shamrock I, 11:33:08.

KILLED BY WHITECAPS.

Lewisburg, Tenn., Aug. 4.—A negro preacher named John Milliken was killed and another fatally wounded by a band of whitecaps last night.

When the mob made its appearance at Milliken's house the preacher made his exit through a back door. He was brought down by a volley, dying almost instantly. John Hunter, a son-in-law of Milliken, was made to accompany the mob on a fruitless search for another negro, and in an attempt to escape was fatally shot in the back. No cause was assigned for the killing, as both Milliken and Hunter bore good reputations.

The C. P. R. has decided to place a special train at the disposal of the delegates to the Chambers of Commerce of the Empire for their tour across the continent, instead of attaching extra cars to the regular trains, as was the first intention.

JURY FIND DEATH WAS ACCIDENTAL

THEIR INQUIRY INTO TUESDAY'S FATALITY

Definitely Established That Henry Caldwell Was the Only Man Killed—Evidence at Inquest.

Further investigation of the fatality on the islet of Macaulay Point on Tuesday completely established the fact that Henry Caldwell was the only man killed. No other person was reported missing and there was no evidence adduced to strengthen the theory which at first arose, that the unfortunate man's fate had been shared by another. Until yesterday afternoon, when Sergeant Murray and Provincial Constable Johnson returned from the scene after examining the pockets on the lower part of the body which had been blown into the water, the identity of the dead man could not be positively asserted. But when they reported that they had found in the pocket a bill to Caldwell from Dr. Ernest Hall and other articles known to be his, all uncertainty on the score of identification was allayed.

The question of identity having been solved it remained for the coroner's jury to investigate the circumstances of the affair. The inquiry was held yesterday afternoon, and the result of the jury's deliberations was a verdict of accidental death. Five witnesses were examined after the jury had visited the scene of the tragedy.

D. T. Jones, the boatman, was the first. He said that Mr. Caldwell came to his place about 7:15 a.m. and engaged a boat. He said he was going to a camp at Macaulay and would do a little fishing. He wore a cap when first seen by witness, but this had been changed for a straw hat when he left the boat house. He had no fishing gear, but carried a miner's bag. He was alone but had asked for a small pair of oars "for the boy, who could row," evidently meaning one of his boys whom, it seemed, he intended to take from the camp.

Mrs. Berkeley, next of the deceased, said Mr. Caldwell had lived with her since last September. She was camping at Macaulay ranch, but he had not been with them. She last saw him on Government street on Monday at 6 p.m., and he was in good spirits, more cheerful than he had been for some time. He did not speak of coming down to the camp. She identified the purse found on the deceased as one she had given him, and also a bill from Dr. Ernest Hall, while she believed the cap and pipe belonged to him. She also identified the photograph as that of her nephew.

Provincial Police Constable Geo. Johnson gave evidence as to the recovery of portions of the remains and where they were found. There was a sack full of stones attached to a rope nearby. In the pocket, after taking the body from the water, he found a pocketbook, and in another pocket a bill addressed to him. There was some money in the pocketbook.

Sergeant Murray gave an account of his search by lamp-light on the night of the occurrence. By this light he had been unable to find the lower part of the body, which was recovered next day. Morris Berkeley, a cousin of the deceased, identified the handkerchief found. His cousin, he said, had been in the hospital for some time.

In summing up, Coroner Hart explained that in this case the jury had two verdicts open to them. One was an accident and the other suicide. There was no direct evidence of either, but if they were unable to come to any decision regarding either, an open verdict would be recorded. The jury deliberated for a short time and then returned the verdict of "accidental death."

The funeral of the deceased will take place to-morrow morning at 10:45 o'clock from the parlors of the B. C. Funeral Furnishing Company, and half an hour later at Christ Church cathedral.

SCHOOL REOPENING.

New Regulations to Be Put in Force at Commencement of Fall Term.

The public schools of the province will reopen on Monday, August 10th. In connection with the opening of the schools the following regulations, made by the council of public instruction, will be put in force in addition to the already established:

Article XVIII.

Clause 1.—All children of school age residing in the vicinity of and outside a city school district, but within a rural district having a graded school, or within reach of the same, shall be required to attend such school.

Clause 2.—Senior grade pupils of rural districts with one teacher and adjacent to a city district, may, with the consent of the board of trustees of that city, be allowed to attend the senior classes of the city schools.

Clause 3.—With the exception noted in clause 2 of this article, all pupils must attend the school or schools in the district in which their parents reside or reside, or in a district which is without a high school to send their children elsewhere throughout the province for high school training.

Seasonable Necessities

Aromatic Strawberry Compound, Essence of Ginger, Lime Juice, Fruit Salts, Citrate of Magnesia, Fly Papers, Roachline. Everybody ought to have these in the house. Let us supply you.

Campbell's Prescription Store
COR. FORT AND DOUGLAS STS.

To Campers

A regular car service is given daily by the Tramway Company to Oak Bay and the Willows. Cars leave Government street terminus for Oak Bay on the even hour and every twenty minutes thereafter; for the Willows at 10 minutes past the hour and every twenty minutes thereafter. Campers making use of this service will find it a great boon, as the terminus at Oak Bay as well as that at the Willows are both within easy distance of the favorite camping resorts.

B. C. ELECTRIC RAILWAY COMPANY,
A. T. Goward, Local Manager.

STRATHCONA ON NEW FISCAL POLICY

NO CAUSE FOR ANY RESENTMENT BY STATES

Says Canada Trusts the Judgment of Mr. Chamberlain—The Pacific Cable.

Montreal, Aug. 5.—The Star's London cable says:

"Lord Strathcona in the Daily Graphic admits that Canada will not be willing to lightly surrender her fiscal independence, but denies the necessity and says: 'The new fiscal arrangements will be settled after careful consideration. Statesmen on either side of the Atlantic cannot see why business men anxious to come to a good agreement to begin with, an arrangement should not be made of mutual benefit to Canada and Britain alike.'"

"Lord Strathcona admitted that an early result of any preference would be to attract large numbers of United States farmers to Canada, but Canadians do not view such immigration with anything but satisfaction, confident from past experience that these new settlers would make the best of citizens. He also denied that there was any cause of resentment by the United States and American businessmen in the proposal of Mr. Chamberlain. Between their states, he said, there exists an arrangement for the most complete mutual benefit, while they interpose a tariff against the outside world. Why should they resent the establishment of a mutually-beneficial arrangement between the States and Great Britain? We do not resent any part of the domestic policy of the United States. Why should her citizens resent any change in Britain's policy? Lord Strathcona added that he believed that throughout Canada to-day there exists the greatest confidence in Mr. Chamberlain. 'Canada believes in him, and trusts his judgment and ability,' he said."

The Pacific Cable.
Official advices from the Imperial treasury, published in Australia, show that the Pacific cable is expected to have a face of \$1,000,000 on March 31st next. The expenditure for the first year while the line was under construction was \$200,000, of which Canada pays \$100,000. The estimated loss on the current year of \$100,000 makes a total deficit of \$1,000,000.

Accommodation Solved.
Every second berth on steamers leaving for Canada is engaged right up till September. Those unable to secure passage direct are going to Canada via New York.

No Complaints Received.
The Canadian emigration office has not received a single letter of complaint from Barr colony immigrants. Those placed in newspapers bear no names.

IMPROVING TELEGRAMS.
New Copper Wire Will Be Strung in Manitoba and Northwest.

Winnipeg, Aug. 5.—James Kent, general manager of the Canadian Pacific telegraphs, accompanied by B. S. Jenkins, the Western superintendent of the company, arrived in Winnipeg this morning after having completed an inspection of the lines of the company from here to the Coast. Everything was found to be in the best of order. Mr. Kent announced the work on several new lines for the Manitoba section of the C. P. R. telegraphs. New copper wires are being strung from Winnipeg to Brandon, Nipawin and Minnedosa, and from Calgary to Edmonton and MacLeod. Last season copper wires were strung from Winnipeg to Fort William and Swift Current. These are chiefly needed in increased business created by the growth of the grain trade, but are also used for other purposes. The company has now on hand material for an addition of over three hundred miles of new wires.

An inch of rainfall represents 100 tons of water to an acre.

BRITAIN AND FRANCE.

French Baron's Plea For Adoption of Conciliatory Policy.

Paris, Aug. 5.—Baron D'Estournelles de Constant, who headed the French parliamentary arbitration group on its recent visit to London, has written an important letter to Foreign Minister Delcasse.

The letter says that during twenty years the fear of parliamentary opposition has alone prevented the settlement of the Anglo-French difficulty and now that the fear is dispelled, nothing prevents the adoption of a conciliatory policy.

All the British statesmen whom he saw, without distinction of party, says the baron, were unanimous in desiring this suggested new policy which must be as clear as the former one was obscure. The new policy has three essential objects:

1. The conclusion of a remarkable arbitration treaty similar to that negotiated between Great Britain and the United States, and in accordance with clause 15 of The Hague international arbitration.

2. A reduction in the overwhelming naval expenditure. An agreement with France and Russia, concerning which, the baron claims to have received categorical, verbal and written assurances.

3. A friendly settlement of the outstanding differences which for 20 years have vainly exhausted the resources of diplomats.

Baron D'Estournelles urges Minister Delcasse not to let this favorable moment slip by. He finally announces his intention of putting a question to the minister on the subject in the Chamber of Deputies when parliament reassembles.

Speaking to the correspondent of the Associated Press, Baron D'Estournelles said: "We have endeavored to free the subject of all utopianism. We expect that the beginning now will be extended until there exists a similar basis of agreement throughout the countries of Europe and America. I beg to wish to see similar exchange between American and French parliamentarians."

AN ARBITRATOR.
Senator Hanna Explains Objects of Civic Federation.

Cleveland, Aug. 5.—United States Senator Hanna, in an address devoted to explanation of the purpose of the Civic Federation, of which he is chairman, delivered before the members of the Cleveland Bazaar, the following address:

"Since the organization of the Civic Federation the working people have been prosperous as never before, and so has the employer. The wage-earners thought to themselves, are we getting our share of this prosperity? I must admit that in many cases they were not. We aim to remedy that condition where there is a difference of opinion between labor and capital; we try to bring them together. The federation does not act as a body of arbitration. We only want to make it possible to get the employer and the employee together to adjust their troubles."

"We have been instrumental in settling nearly 100 strikes in two years. The only failure of any importance was in the great anthracite strike. I made a proposition to the mine owners to settle the strike on a basis of five per cent. advance to the miners, and they refused. The arbitration board appointed by President Roosevelt gave the miners more than twice as much. If our offer had been accepted, it would have saved the country \$200,000,000."

NARROW ESCAPES.
Captains of Lipton's Yachts Thrown Into Water By Collapse of Wharf.

New York, Aug. 5.—Capt. Wringe, of Shamrock, III., and Capt. Bevis, of Shamrock I., had a narrow escape tonight through the collapse of a pier on the Shrewsbury river at the Highlands. With twenty other persons, including several of the crew of the challenger, the two sailing masters were precipitated into the water, but were not hurt.

Capt. Wringe and Capt. Bevis, with three sailors, left the Irish yacht in Sandy Hook bay, in the steam launch Buttercup, and started on the Shrewsbury river. On the way the Buttercup struck a sandbar and began to sink. Capt. Wringe took the wheel and headed her for the beach, which was reached after the water had risen nearly to the furnace door. A great crowd had been attracted to a nearby wharf, where Capt. Wringe and Bevis landed after procuring tackle for the purpose of hauling the stern of the launch out of water. One end of the tackle was fastened to the stern of the Buttercup and the other was secured to the wharf. The wharf collapsed and all on it were thrown into the water. For a time it was feared that many had been crushed under the timbers, but all escaped.

REVOLT PROCLAIMED.
Hostilities Reported to Have Broken Out in Macedonia.

Sofia, Aug. 5.—The Macedonian committee announces that a revolution was proclaimed at the Village of Monastir last Sunday, in conformance with the decision of the central revolutionary committee. The committee states that all the revolutionary forces in the district of Monastir, Resen, Ochrida, Debro, Kotelchero, Portichka, Kronechero, Porlin, Serin, Kaylad and Demichas simultaneously commenced hostilities. All telegraphic communication has been cut off in the district mentioned. The announcement has not been confirmed owing to lack of communication.

Situation Serious.
Constantinople, Aug. 5.—The Porte has abandoned all idea of withdrawing troops from Macedonia, and is now making vigorous preparations to draft troops for the disturbed districts. A circular note has been sent out warning the powers of the intention of the Turkish government. The note states that the situation is very serious, and although it does not mention Bulgaria, the document is regarded as a menace to the Bulgarian government.

HEALTHY GROWTH OF NEW ORGANIZATION

Nearly Three Hundred Names on Membership Roll—The Association's Year's Budget.

The first meeting of the Y. M. C. A. board of directors since the arrival of the new general secretary was held on Tuesday evening in the association parlors. H. W. Clark, the president, was in the chair, and the board was represented by Messrs. McKicking, Siddall, Steneland, Scowcroft, Martindale, Whittington and Knott. The reports of the different committees showed a healthy growth. The secretary's report showed that the rooms were used extensively by the young men. The membership was increasing, there being now 205 names on the roll, and that there was a general feeling of appreciation and confidence towards the work.

The treasurer reported a total income of \$1,301.10 for the seven months of the association's existence, with an expenditure of \$1,247.70. This income was largely from the membership. The secretary was instructed to send a letter to James Dunsinuir, thanking him on behalf of the board for his generous gift in leasing the City of Nanaimo for the excursion, July 25th.

After several matters of routine business had been disposed of, the budget committee presented their report. Several of the items were discussed at length, the following budget being finally adopted, covering a year's expenditure and income:

Salaries	\$1,620.00
Rent	300.00
Light and fuel	235.00
Magazine and papers	40.00
Printing and stationery	50.00
Telephone	48.00
Advertising	20.00
Postage	25.00
Furniture	100.00
Repairs	25.00
Travelling expenses	15.00
Sundries	100.00
Estimated Income.	\$2,628.00
From sustaining members	\$1,200.00
From ordinary members	750.00
Other sources	200.00
Total	\$2,150.00

This would leave a balance to be raised by special subscription.

The budget committee recommended that steps be taken immediately to raise \$1,500 in subscriptions to cover the expenses for three years, payments to be made yearly or half yearly. After lengthy discussion it was felt that this was the best plan, and the finance committee was instructed to institute a canvass of the business men.

It was thought that, inasmuch as the members generally, and especially the board of directors, had supported the movement so loyally, the public could be counted upon to respond to an appeal at this time.

The association is on a firm basis and has already proven its right to assistance. The class of work done to-day by the association appeals to the average young man. It stands for the development of a strong, vigorous manhood, and the greatest question is not money, or buildings, or relationships, or extensions, it is men. The board of the local association has been very judicious in their expenditures, and being practical business men, can be relied upon to make the best use of any money contributed to the work.

The following is a partial list of the prominent men who have already subscribed to the work: James Dunsinuir, Weller Ross, David Sencer, Hon. E. A. Smith, R. P. Rither & Co., Major McCandless, Ald. Barnard, T. M. Henderson, Lieut. Col. E. G. Prior, Ald. Kinsman and Senator Macdonald.

MUST STICK TO CONSTITUTION.
Secretary Draper's Opinion Regarding Qualifications of Two Local Unions.

An important communication was read from Secretary Draper, of the Dominion Trades and Labor Congress, at last night's meeting of the Victoria Trades and Labor Council. It was in reference to that section of the constitution making it compulsory for unions to be affiliated with international organizations of their craft. Mr. Draper wrote that the woodworker's and hatter's unions recently admitted to the council were ineligible. Considerable discussion was provoked by the reading of this communication, and finally it was decided that the unions mentioned be allowed three months in which to comply with the rule.

The resolution of the Winnipeg Trades Council condemning the immigration of mechanics into this country was endorsed by the council.

The Labor Day celebration committee reported that they had been unable to make arrangements to date for an excursion to Vancouver on September 7th. They will send a member to the Terminal City if necessary to make arrangements.

An application from Harold Burnett asking representation on the council on behalf of the newboys' union was referred to the organization committee.

The following delegates were received: Street Railway Employees, Messrs. Monk, D. Miller and W. A. Smith; Blacksmiths, J. McLachlan; Garment Workers, Miss Sweney and R. Herbert; Plumbers, A. Marion and W. H. Braden. The names of delegates from the disbanded B. C. S. S. union were stricken from the list.

Whitaker Wright, the promoter and director of the London & Globe Corporation, Limited, was arraigned at the Guildhall police court, London, on Wednesday, and was remanded after the formal evidence of his arrest had been taken. He was released on bail of \$250,000; himself providing \$125,000, and three securities guaranteeing the remainder.

Lifebuoy Soap—disinfectant—is strongly recommended by the medical profession as a safeguard against infectious diseases.

THE KLONDIKE OUTPUT.

Banker of Dawson Tells of Year's Gold Production—A Late Clean-Up.

Late advices from the Yukon tell of a big clean up above Bonanza, which goes to show that there is an abundance of placer gold in the Klondike yet. This latest clean up is one of the biggest ever made in a like amount of dirt. The report says that four hay men out of the 25 on the claim had washed up \$255,000. The clean up had been a week ago last Sunday, when the amount reached \$52,000. It took four men to carry away the gold. The claim is owned by C. E. McKee. The gold assays \$17.02 to the ounce, and half was sold at \$16.15, making the clean up of 3,183.74 ounces, valued at \$52,000. In the dump there were only 22,000 buckets. The average to the pan has been from \$1 to \$1.25.

W. T. Wells, of the Canadian Bank of Commerce, when in Seattle, was interviewed and is credited by the Post-Intelligencer as saying:

"Unless the rain fall is very light for the remainder of the season this year's gold output from Dawson will be about the same as that of last year, and will be about \$1,000,000. There have been years in the past when the output was nearly double that amount, but it is not to be inferred that the Dawson district is worked out. Such is far from being true, and the resources of that country as a whole have only begun to be touched. The whole country from the Peace river north to the Arctic is rich in gold. All we need is a railroad to distribute supplies and you will see a stream of gold flow out of that territory that will make the early discoveries seem very small. At present mining operations cannot be carried on far from Dawson on account of there being no way to secure transportation for the supplies needed. Given a railroad, the territory will soon have 20 Dawson's."

"Mining in and about Dawson may be said to be in the earliest stages. For the most part the mines are only in the beginning of development, while the older properties, such as those located on Bonanza and Eldorado creeks, although not worked out, are approaching it. The mines of the future will be along Dominion creek and Stewart river. At least that would seem probable at present, but, as I say, the whole region is rich in mineral."

"There is nothing unusual in the gold conditions in Dawson this year; everything is very much the same as last year. Improvements are under way at present, however, that will lift the gold production higher in the future. One thing indispensable to mining in Alaska is water. We must have water, and so far this year, while we have had rain in places, it does not seem to have fallen where it has been most needed. As it is there will undoubtedly be a shortage in production, but on the whole I hardly believe that the total output will fall much, if any, below that of last year."

The City of Seattle, which arrived at the Sound a way or two ago, brought \$500,000 in treasure.

THE MINING EXHIBIT.
Will Be as Complete and Comprehensive as Possible—Executive Meeting.

At a meeting of the executive of the Victoria branch of the Provincial Mining Association attention was turned to a circular from the parent body pointing out that there were now twenty-one active branches throughout the province harmoniously working for the advancement of the industry.

The chief business of the meeting, however, was the consideration of the mineral exhibit to be displayed by the local branch at the forthcoming exhibition. The announcement of the directorate of the British Columbia Agricultural Association that an appropriation of \$100 had been made to defray expenses in this connection was somewhat disappointing as the estimate of the cost considerably exceeds this amount. However, it was decided to do all possible to present as complete and representative an exhibit as possible, and it was hoped that transportation companies would assist by carrying samples free. It is also hoped that mining men of the province will respond promptly to the requests for samples which will be made to them. This anticipation is especially entertained in view of the contemplated establishment by the local branch of a permanent mining exhibit in this city.

After debating the sugar convention bill in the Imperial House of Commons the whole day, the opposition fighting each point with the greatest pertinacity, the government at midnight began the wholesale disposal of amendments by the application of the closure, and the bill was reported to the House unamended at 2:30 a.m.

Curse DRINK
—OF—
COLONIAL REMEDY
CURED BY
No taste. No odor. Can be given in glass of water, tea or coffee, without patient's knowledge. Colonial Remedy will cure or destroy the diseased appetite for alcoholic stimulants, whether the patient is a confirmed habitué, "tippler," social drinker or drunkard. Impossible for anyone to have an appetite for alcoholic liquors after using Colonial Remedy.

INDORSED BY MEMBERS OF W.C.T.U.
Mrs. Moore, Superintendent of the Women's Christian Temperance Union, Victoria, Cal., writes: "I have tested Colonial Remedy on very obstinate drunkards and the cures have been many. In many cases the remedy was given secretly to the fully recovered and indorse Colonial Remedy. Members of our Union are delighted to find a practical and economical treatment to aid us in our temperance work."

Sold by druggists everywhere and by mail. Price \$1. Trial package free by writing or calling on Mrs. M. A. Cowan for year's member of the Women's Christian Temperance Union, 2204 St. Catherine St., Montreal.

Sold in Victoria by THOS. SHOTBOLT, 50 Johnson Street.

"Let the GOLD DUST twins do your work"

CAN YOU SEE THE OTHER TWO BOYS WHO ARE FISHING?
In yesterday's puzzle, by using the upper left corner as base, the cow is found near this corner, formed by the barn and branches of the tree.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria
Meteorological Department.

Victoria, Aug. 6.—5 a. m.—The pressure is highest on the Oregon coast, but a moderate low barometer area is hovering off the Queen Charlotte Islands. Light showers fell at Port Simpson and thunderstorms occurred there and at Spokane, but fair warm weather is general over the North Pacific slope. From Cariboo eastward to the Great Lakes, a vast high barometer covers the entire region, and the weather is chiefly fair and cool, with showers at Winnipeg and Port Arthur.

Forecasts.

For 24 hours ending 5 p. m. Friday.
Victoria and vicinity—Moderate or fresh southerly winds, generally fair, with stationary or lower temperature.
Lower Mainland—Light or moderate winds, generally fair, with stationary or lower temperature.

Reports.

Victoria—Barometer, 30.11; temperature, 57; minimum, 56; wind, 10 miles S. W.; weather, clear.
New Westminster—Barometer, 30.10; temperature, 56; minimum, 56; wind, 6 miles E.; weather, fair.
Kamloops—Barometer, 29.98; temperature, 56; minimum, 56; wind, calm; weather, clear.
Barkerville—Barometer, 30.10; temperature, 48; minimum, 42; wind, calm; weather, cloudy.
San Francisco—Barometer, 30.00; temperature, 50; minimum, 48; wind, 4 miles W.; weather, clear.
Port Simpson—Barometer, 29.98; temperature, 56; minimum, 50; wind, 4 miles N.; rain, 0.4; weather, rain.
Edmonton—Barometer, 30.16; temperature, 46; minimum, 46; wind, calm; weather, clear.

TORONTO MINING EXCHANGE.

(Furnished by the Stuart Robertson Co., Ltd., Successors to A. W. More & Co., Ltd., Mining Brokers, 28 Broad St.)

Toronto, Aug. 6.—The following were the closing quotations on the Mining Exchange to-day:

Serious rioting is in progress at Lorient, on the coast of Brittany, where labor troubles have been brewing for the past several days. The militia was called out, but the rioters put out the street lamps and erected barricades. The cavalry charged, the rioters losing their tempers, rode down the mob, striking men with the flat of their sabres. The crowds show no signs of dispersal.

The firm of Hurlbutt, Hatch & Co., whose assignment has been announced on the New York Stock Exchange, was composed of John Hurlbutt, E. S. Hatch, board member, and J. F. Smith. The co-partnership was formed September 12th, 1890. An assignment was made to Henry B. Detchem, a lawyer of the firm of Field, Esselstyne & Detchem, of 35 Wall street.

POWELL DEFEATED THE CALIFORNIAN

SPLENDID STRUGGLE BETWEEN TWO EXPERTS

The Victorian Was in Superb Form—
Other Fine Contests in Yesterday
Afternoon's Play.

Every available seat was occupied when the first set of the Freeman-Powell lawn tennis contest commenced yesterday afternoon at the Belcher street courts. More general interest was taken in this event than any of those previously played, and when Powell, the Victorian cricketer, and Freeman, one of the best of California's players, faced each other the prevailing opinion was that the latter would win, although the local man would undoubtedly put up a good fight. However, Powell proved to be in the best of trim, while his opponent was decidedly off color. When Powell kept forging ahead, securing one game after the other, the greatest surprise was manifested. Many thought at first that the visitor was not calling upon all

R. B. POWELL.

Of This City, Who Defeated L. R. Freeman, the California Crack, Yesterday.

the resources at his command, but this idea was dispelled when Powell several times unmistakably puzzled the Californian by his superb placing. Two sets finished the game, the score being 6-2, 6-2. What won the game for the local man was his splendid defence, remarkable judgment and accurate placing. Repeatedly Freeman would deliver one of his hard smashes, but Powell would catch it on the bounce and send it right in the air to his opponent's court. Several times some pretty play took place, with both men practically standing over the net. On these occasions it was only chance that decided which would have the point. If Freeman got the opportunity he sent it to one side, while Powell adopted the same tactics. It was in placing his smashes that Freeman showed bad form yesterday. As a general rule he can place a fast ball just over the net in any part of the court. Yesterday, however, he lost many points through putting these smashes into the net. There were many who would have liked to see Freeman victorious, if only that he might be matched with Goward, the present holder of the championship. A match between Goward and Freeman would attract a great deal of attention, but enthusiasts will likely have an opportunity of seeing a battle royal between the two local cricks, because, as a result of this contest, the championship round to be played on Saturday afternoon will most probably be between the old rivals, R. B. Powell and A. T. Goward. Who will win is, of course, a matter of conjecture, but many incline to the opinion after Powell's exhibition yesterday he will give the present champion a hard contest.

Another game which was watched with the greatest interest was that between J. Rithet and E. Langworthy. It was won by the former by a score of 6-4, 6-4. The match, as is evident, was closely contested. Rithet's smashes, however, won him the game.

Directly after the Powell-Freeman contest, Goward and Pooley were matched against Macrae and J. Leeming in the gentlemen's doubles. Contrary to general expectations, the latter gave their opponents a hard struggle to win, or, as one put it, "all they wanted." At first Macrae and Leeming did not seem to work well together, but after a little they settled down and did some excellent playing. The score was 6-2, 6-3.

There was another game worthy of special mention played in the afternoon. It was between J. Tyler, of Seattle, and Miss Seymour, of Tacoma, and J. D. Hunter and Miss Langton. The local players were victorious in a close three set match. The score was 8-6, 3-6, 6-3.

Following are yesterday's scores: R. B. Powell beat T. D. Stevens, 6-1, 6-0. Mrs. Langley and Miss A. Bell beat Miss Macrae and Miss Wilson, 6-3, 4-6, 6-1. E. C. Hilton beat Lieut. Lewis, 6-2, 6-3.

J. Tyler and Miss Seymour beat J. D. Hunter and Mrs. Langton, 8-6, 3-6, 6-3. J. Rithet beat E. Langworthy, 6-4, 6-4. Pooley and Goward beat Macrae and Leeming, 6-2, 6-3. Miss Macrae and Miss Todd beat Miss Seymour and Miss Worden, 4-6, 6-0, 6-4. R. B. Powell beat L. R. Freeman, 6-2, 6-2. Farquhar and Crickman beat Capt. Bunbury and Major Black, 6-3, 5-7, 6-1. Beecher and Canbie beat Lieut. Cameron and Capt. Popham, 8-6, 6-0. Capt. Bunbury and Miss Vernon beat Capt. Ricketford and Miss Rithet, 9-7, 6-2. Mrs. Langley beat Miss V. Powell, 6-0, 6-0.

Hilton beat Crickman, 6-1, 6-2. Farquhar and Miss Smith beat Bell and Miss Davidson, 7-5, 6-3. F. T. Cornwall beat J. Tyler, 6-1, 1-6, 6-1. H. Woodward beat B. Tye, 6-2, 6-2. Pooley and Miss Baker beat O. C. Pratt and Miss Worden. R. B. Powell and Miss Ricketford beat A. T. Goward and partner, by default.

The fixtures for this afternoon after 4 o'clock follow: 5 p. m.—No. 1 Court—F. T. Cornwall vs. winner of Hilton and Pooley. No. 2 Court—Canbie and Miss Hickey vs. winners of Rithet and Miss Dunsmuir vs. Capt. Bunbury and Miss Vernon. No. 3 Court—Mrs. Langley vs. winner of Miss Macrae vs. Miss Seymour.

UNABLE TO PLAY.

Boston, Aug. 5.—A default by one of the British players and a decisive defeat for one of the American contestants made the first day's play for the international lawn tennis challenge cup at Longwood Cricket Club not only dull, but disappointing. It

doubt Flinn, the young south paw pitcher, who is conceded to be one of the best left-handers outside the league, in fact he has had league offers, but prefers the staid work offered him by the Frederick & Nelson people. Woodworth is their other pitcher, and he shut the Olympia team out by 2 to 0 on the 4th of July. Bergin does the catching. L. A. Gault, 1st base, Patton 2nd base, Kelsey 3rd base, Helms short stop, Mulachy centre field, Hulen right field, and Flinn or Woodworth left field. To-morrow's game will be called at 4:15, the evening games being over for this season.

For Victoria, Emerson will do the pitching to-morrow, and on Saturday Victoria's young south paw, Blackburn, will do the twirling. Blackburn has now pitched three games for the seniors and has clearly demonstrated his ability to hold his own in senior company. With good support he should never have the least trouble in winning his games. Chase will do the catching in both games.

AT OAK BAY.

Last evening a match was played between the Pandora street nine and the Oak Bay team. After seven closely contested innings the latter team was victorious by a score of 8-4. Herd and Sylvestor were the battery for the Pandoras, and Nason, Dempster and Coulson for Oak Bay.

ANOTHER VICTORY.
A game was played last evening between the Minnehaha and Yip-Yaps, resulting in a victory for the former. A spectator contributes the following account of the match: "Another victory for the Minnehahas, champions of everything the other side of the George bridge. Once more they sent the Yip-Yaps down to defeat amidst the acclamation of a large crowd of visitors and the numerous families camped in the vicinity. S. Rayner, the twirler for the winning team, kept his opponents busy shagging the atmosphere, and guessing where the next one would come. The catcher, J. Anderson, was a regular stone wall behind the plate, and the support given by the remainder of the team was all. The city of Victoria will have to pull up their socks when they are challenged to meet the Minnehahas if they want to win. The score was 12-1. Out of five matches played by the campers the Minnehahas have won three and drawn one."

INTERMEDIATE LEAGUE.

On Saturday afternoon at the Caedonia park or Oak Bay the deciding game of the intermediate league will take place. The contesting sides will be the Fernwoods and Hillside, and one of the fastest exhibitions of intermediate baseball is confidently anticipated. According to reports, both these teams have been preparing for the forthcoming contest and will put up a determined fight for the championship. The records of the rival teams this season is so even that there is no saying which will win out. So far the Hillside have won the most games, but they have played one more than the Fernwoods. There is little doubt that the latter aggregation will defeat the Capitals, when they will be on an even footing with the Hillside. On the last occasion these two teams met the Fernwoods were victorious, but by a narrow margin. They were, however, once beaten by the Esquimalt nine, which neutralized the advantage they gained over the Hillside. In Saturday's game the Hillside will be selected from the following: Cutwell, Smith, McInroy, Hutchison, McConnell, Orrell, Kinsman, Leach, Anderson, Armstrong and Hughes. The Fernwoods will be slightly handicapped on account of Cammisa having strained his arm in last Saturday's game with Esquimalt. H. Herd will do the twirling in his stead, and promises a surprise for the boys from the north, he having a good assortment of benders with lots of speed, and a very quick delivery. The team will be picked from the following: Robertson, Gray, Herd, A. Shanks, Carlow, S. Shanks, H. Jamieson, H. Macmillan, M. Malcolm, A. Jeffs and Cammisa. The standing of the league follows:

Played.	Won.	Lost.	To Play.	Pts.
Hillside	4	3	1	8
Fernwoods	4	3	1	6
Esquimalt	3	1	4	2
Capitals	4	1	3	2

THE RING.

FIGHT AT CROFTON.
Robby Clarke, of Victoria, and "Kid" Broad, of Seattle, met at Crofton in a glove contest of what was to have been twenty rounds, for a small purse. From the start Clarke fought a long-distance battle, and was very cautious, Broad making the pace. When the opening came, in the sixth round, Clarke cleverly side-stepped and ducked, planting his left with a full-power jab straight over the Kid's heart, and at the same time crossed with his right to the point of the jaw, a heavy jolt. Broad went down and out, ending a very stiff and interesting battle.

'SNAIHAM' HAS ARRIVED.

W. Snaiham, who is matched to meet Cassie Atwell in the city August 12th, arrived from the Mainland last evening in company with his trainer, "Spider" Welch. The forthcoming contest will be for twenty rounds, and as Snaiham and Atwell are evenly matched one of the closest contests of the year is anticipated.

YACHTING.

SMART MANOEUVRING.
Atlantic Highlands, N. J., Aug. 5.—Capt. Wrings, of Shamrock III, and Capt. Bevis, of Shamrock I, got into a hot contest in today's race of the two boats off Scotland Headship, and the masterly fashion in which the clever skippers handled the big racers delighted Sir Thomas Lipton and Capt. McKinsley, of the Teutonic, and Capt. Bertram F. Hayes, of the Arabia, his guests as well as the Brits' company. Capt. Wrings, who has yet to discredit Sir Thomas's word that he is the best of Great Britain's skippers at getting a coveted position at the start, sent the challenger over the line with the old boat under her lee for a ten-mile beat to windward and a run home on a rattling 2-knot breeze from the southeast.

The conditions were the old boat's best chance, and Capt. Bevis fretted for 15 minutes, while his craft was blanketed by the fleet-footed challenger. Then he whirled Shamrock I about on the other tack. Capt. Wrings followed, and again blanketed Bevis's craft. Shamrock I promptly tacked again, and just as promptly the challenger whirled about. Seven tacks they made in three minutes, each time Shamrock III, holding the old boat under her lee. The seventh time Capt.

Bevis got ahead on his boat, while the challenger was filling away, and Shamrock I slipped through the challenger's lee and got her wind clear, but had not the heels to hold it.

Shamrock III was still to windward and soon overhauled her pacemaker, so that the latter had to tack again. Capt. Wrings did not follow, but gave his attention to getting to the turning mark. Up to that time the old boat had held her own well, but afterwards she rapidly dropped astern, and was beaten by 2 minutes and 27 seconds elapsed time at the turn.

Running home to the finish line in such a breeze the old boat ought to be at her best, yet the cup hunter added almost five minutes to her victory, an astonishing performance.

Harry A. Faulkner, former member of the House of Delegates, was at St. Louis, after his third trial on the charge of perjury, convicted, and his punishment fixed at three years' imprisonment. A motion for a new trial was made.

 60 Second St., Monday and Tuesday evenings.

THE OLD LIST WAS CANCELLED ON JUNE 10th.

A PERFECT GUARANTEE.

The men who speak for the great Conservative party would cut a much better figure if they made the best of a very difficult situation from their point of view and frankly admitted the bargain made by the government with the Grand Trunk Railway Company to be a good one, promising to be of vast benefit to the Dominion. They are simply making themselves ridiculous in their absurd blunders from one untenable point of criticism to another.

The first objection taken was that the scheme was developed simply and solely for the benefit of the railway company. The sections which would pay from the beginning were to be constructed by the company. One of these was the mountain section from the prairies to the Pacific Ocean. We hope that portion will pay from the running of the first train, but we have our doubts. The wealth of British Columbia does not lie so close to the surface as does the wealth of the prairies. Our crops are not produced in abundance in the course of one season. The line through this province will be the most costly to construct and probably the last to earn dividends, though we hope not. In one respect the new road will have a great advantage. The government has taken care that no water shall be injected into the stock. The railway will not be compelled to earn interest upon fictitious capital. That and the fact that the government has absolute control of rates, without any hampering clauses whatever, should insure reasonable charges and the greatest possible stimulus to development.

The section of line from Winnipeg east, designed to pierce a country of unknown possibilities, and therefore of doubtful potentialities, was to be constructed by the government and handed over to the company practically as a present. Now the ground is shifted. There is no guarantee that the company will operate the line after it is built. We are told the government will have no compelling grip, with the exception of rolling stock worth a paltry five millions of dollars, which may be worn out and obsolete before the charges upon the company for rental become due. That is the criticism of some Conservative papers. The Colonist asks: "What is to prevent the Grand Trunk Pacific in ten years' time from shifting its traffic west of Winnipeg into the present Grand Trunk system, and making Portland, Maine, the effective terminus of the whole system? We see nothing in the contract to prevent it." The fact that the Grand Trunk has no lines of its own approaching within hundreds of miles of Winnipeg should be sufficient to prevent it. It is true the

company might secure running powers over American roads and an outlet in that direction, but it is questionable whether freight could be carried as economically over such round-about routes as over an air line direct to the sea. In fact there is no doubt upon the subject whatever. The water routes are closed up for fully five months in the year, and during that time at least the advantages will lie with the direct, short, all-Canadian route.

But there are other safeguards. Sir Wilfrid Laurier referred to them as follows in laying the government's policy before the House:

"I will come presently to the objections which I see in the faces of hon. gentlemen opposite. They will ask me: What guarantee have you that the company will be able to pay that rate of interest? I will come to that presently. But let me first give to the House the provision we have made for the use of the railway for traffic by other roads. It is our intention that this line of railway shall be a common highway for all the railways who want to use it, and for this purpose we have made a provision in the contract in the following language:—

"24. This said lease shall also contain proper and usual provisions, (a) Reserving to the government in respect of its ownership, present and future, of the Intercolonial and any other line or lines of railway, running powers and haulage rights over the said eastern division upon equal terms with the lessees, subject to such reasonable restrictions as may be necessary to secure safety and convenience in the operation of all the traffic over the said division and subject to the payment by the government to the company of such reasonable compensation as may be agreed upon by the government and the company; (b) Reserving power to the government to grant running powers and haulage rights sufficient to enable any railway company desiring to use the said eastern division or any part thereof, to do so upon such terms as may be agreed upon between the companies, or, in case of their failure to agree, then upon such terms as may be deemed reasonable and just by the government having regard to the rights and obligations of the lessees; (c) Securing to the government, in respect of its ownership as aforesaid, running powers and haulage rights over the western division, or any portion thereof, upon such terms as may be agreed upon between the government and the company; (d) Securing to any railway company desiring to make use of the same, running powers and haulage rights over the said western division, or any portion thereof, upon such terms as may be agreed upon between the companies, or, in case of their failure to agree, then upon such terms as may be deemed reasonable and just by the government; (e) Securing to the company running powers and haulage rights over the Intercolonial railway, or any portion thereof, upon such terms as may be agreed upon between the government and the company."

So that under this agreement an Intercolonial train can leave St. John or Halifax and proceed all the way to Port Simpson. Under this agreement, a train of the Great Northern or of the Canadian Northern can enter upon this road at any point and go as far as the Maritime Provinces. So we have guarded this point in every way, and I believe that in this respect the provisions we have made will command the full satisfaction of the Canadian people. But coming back to the rental, I may be told, you have taken provision, you say, that the rental shall be paid by the company for all the time the bonds run, with the exception of seven years. What guarantee have you that this will be implemented? We have taken precautions upon this point, which I will now recite to the House.

"35. For the purposes hereinafter in this paragraph respectively defined, the company may and shall create mortgages to trustees as follows:— (a) A mortgage which shall be a first charge upon the railway, undertaking, equipment and property, tolls, rights and franchises of the company, including all equipment and property to be thereafter acquired by the company (but not including branch lines exceeding six miles in length or the revenues therefrom or the franchises in connection therewith, or such additional rolling stock as may, with the assent of the government, be designated and marked by the company as constituting the equipment thereof, and not including ships or any municipal or provincial grants of land, by way of bonus or subsidy, to the said company other than for railway purposes) to secure the payment of the said issue of first mortgage bonds guaranteed by the government; (b) A mortgage which shall be a second charge upon the property covered by the mortgage provided for by paragraph 35 (a), save and except rolling stock constituting the equipment of the eastern division, to secure the bonds to be guaranteed by the Grand Trunk Company of Canada as aforesaid; (c) A mortgage which shall be a charge upon rolling stock constituting the equipment of the eastern division next after the charge mentioned in paragraph 35 (b) to secure to the government the rental payable in respect of the eastern division, the efficient maintenance and continuous operation of the said eastern division, and the observance and performance by the company of the terms of this agreement."

Now, you see we have provided a special mortgage to force the company to implement the conditions imposed upon it, and especially the operating of the railway. But I may be asked: Will this be sufficient? There is a mortgage of \$5,000,000 upon the rolling stock which is sufficient to force the company to implement its promise to operate this road? We have far more to do than undertake the simple mortgage to which I have alluded. We have the interest of the company itself to operate this road. No one doubts that the interest of the company would be to keep the traffic of the Grand Trunk for that railway. It will take it over its present line to North Bay, from North Bay over the road which is now being built by the Ontario government, and then, transferring it at the junction of this road with the proposed road, it will send it westward to the

Pacific ocean. I wish to make myself understood. The Grand Trunk Railway Company has an immense interest in getting to the fields of the prairies. Its trade to-day is in the province of Quebec and in the province of Ontario. It will take this trade from Toronto, from Montreal and from points eastward to North Bay, from North Bay, it will take it over the new line being built by the Ontario government to the point of junction with the present road, and then westward to the prairie section. Its interest there is manifest. It must operate that road. Otherwise it would never have gone into this contract. This contract is to give it the privilege of taking its traffic in the prairie section from Ontario and Quebec, but the condition is this, that it shall operate not only that section of the road, but the whole of the road from Winnipeg to Montreal. It cannot default upon the eastern part, because, if it defaults upon the eastern part, it defaults upon the western part. It cannot default upon the one part without defaulting upon the other part, and therefore, we hold them tight, to their bargain, and they cannot deviate from it.

The country runs no risks whatever. The road will be operated from Atlantic to Pacific by the Grand Trunk Pacific Railway Company. Eventually there will be steamships plying to all parts of the world upon the waters of the two great oceans, exemplifying in their operations the extent and magnificence of the new Empire in America.

On the eve of the Manitoba elections Premier Roblin announced with a grand flourish that he had secured a reduction of two cents in the rates for the transportation of wheat over the line of the Canadian Northern railway. There has been no reduction. The noble representatives of the great party gleefully announce that they have secured a good one on the Liberals. So they have, and also on the people of Manitoba who were silly enough to accept their word. It is not the first time a portion of the people of Canada has been duped by the noble band of illustrious "statesmen."

benefits of athletics. The young men of Victoria "go in for" all sorts of athletic sports—almost. In rowing, baseball and lawn tennis they excel. In many other forms of diversion which call for the exercise of nimble wits and limbs, and for a good lung development, they are fairly well to the front, but they do not apply themselves with diligence to the sports in which their forefathers delighted and to which their contemporaries in the East devote themselves with such zest. There are athletic meets every autumn in Montreal, Toronto and the American cities. There young, stalwart Canadians pit themselves against the flower of the population of the United States, and sometimes of Great Britain also. Notwithstanding the sparseness of our population we have great reason to be proud of the prowess of our boys as shown at those meetings. Many a "dark horse" has come forth from unexpected places and defeated competitors picked from a field almost as wide as the world. On one of those occasions George R. Gray, of Coldwater, Ont., stepped forth a mere stripling in comparison with the men opposed to him, took off his coat, rolled up his trousers, and without any special training put the shot farther than such giants as Mitchell and Quekberner, of New York. Gray was never beaten while he remained in the field. A young clerk in one of the Toronto banks defeated George of England in a mile run on a Toronto track a number of years ago. George Orton, another champion, came from the neighborhood of Guelph, Ontario. Chaffery of Hamilton ran all the great pedestrians to a finish and made record time in the Marathon road race. Many more young Canadians have accomplished equally creditable feats. We grow the best men in the world north of the 40th parallel. We in Victoria are a trifle south of that magic line, but not far enough south to be affected by the climate. It is true the diversity of our amusements here is very great. In the East the land is not so prolific of good things, and the consequence is that there is more concentration and possibly greater success along certain lines. But we hope our youth will appreciate the opportunity that has been presented to them by the meet of the new Northwest Athletic Association. We wish the organization success in its first attempt to arouse the interest of young and old in Victoria in general athletics. Such exercises are well known to be beneficial, morally and physically. Let the appeal of Mr. Billinghamurst on behalf of the association not be made in vain.

Now there is a dispute as to whether Cardinal Gibbons or the Emperor of Austria vetoed the election of Cardinal Rampolla to the post of supreme power and honor in the Roman Catholic Church. We have noticed all along by the Associated Press dispatches, that the American churchman, although occupying a position of "splendid isolation," being the whole thing in the party which he led composed of himself, was held up as the dictator of the holy conclave. On this continent we shall regard the American as the victor. Whoever may have been the arbiter of the destinies of the members of the assembly, there is a pleasing unanimity of opinion that another great and good man, although of simple tastes and unaffected manners, has been placed in the chair of St. Peter.

AN OBJECT LESSON. London Times. Lord Lansdowne very justly says that we are not concerned with German motives or with the exact origin of the impulses that govern German action. We have to do with the facts of German policy, and those amount, whatever the motives may be, not only to penalizing a colony which had not added a penny to its imports upon German goods, but also to employing a political deterrent to hinder the closer union of our colonies with the Mother Country. But, at the same time, we must not forget that for ourselves a revolver as good as the German one, the military attitude was dropped, the contemplated further measures against Canada abandoned, and the whole

question argued on deprecatory grounds of injured innocence. That is an object lesson for the country, which is not to be put out of sight by any amount of declamation about the abstract doctrine of free trade. We must have the means of protecting ourselves and our colonies against the operation of scientifically contrived fiscal laws, and, if the weapon should cost us something, so does every weapon needed either in war or in peace.

RESPONSIBILITY. Lytton. No stream from its source flows seaward, how lonely soever its course. But what some land is gladden'd! No star ever rose And set, without influence somewhere! Who knows What earth needs from earth's lowest creature? No life Can be pure in its purpose and strong in its strife. And all life not be purer and stronger thereby! The spirits of just men made perfect on high— The army of martyrs who stand by the throne And gaze into the Face that makes glorious their own— Know this, sure, at last! Honest love, honest sorrow, Honest work for the day, honest hope for the morrow, Are these worth nothing more than the hand they make weary— The heart they have sadden'd—the life they leave dreary? Hush! the sevenfold heavens to the voice of the Spirit. Beho, "He that overcometh shall all things inherit!"

A WOMAN'S VANITY. Pick-Me-Up. Mr. Potts, to his wife: "My dear, the air is chilly. Fermez la fenetre. The visitor, sotto voce:—Why do you ask your wife in French to shut the window? Mr. Potts, ditto—Because you are here. If I asked her in English she wouldn't do it, as she won't take instructions from me before visitors. But if I say it in French she gets up and does it at once, so as to let you see that she understands the language."

DIFFERENCE IN THE OLD DAYS. Baltimore American. "And now," said the inquisitive person, who had been asking all sorts of impertinent questions of the race-hound mountaineer, who sat at his cabin door smoking a corn-cob pipe, "now I will explain to you why I have been so inquisitive. I am a sociological investigator, and I am doing this in the interest of science and humanity."

"How things do change," remarked the mountaineer as he leisurely stretched himself. When I was a boy we called your kind of people dern snoop-nosed meddlers."

RELIGIOUS TOLERANCE. Hartford Courant. What has become of Theologic Hate these days? Still in the world, no doubt, but shrunken and decrepit, like the two giants seen by John Bunyan in his dream, who had let their clubs drop from their feeble, palsied old hands, and could only mumble and make faces at the passers-by. More and more, Christians of every name are coming to feel toward those who differ with them, even the most radically, that comprehending charity which Browning put into words in the poem of Christmas Eve:

"Do these men praise Him? I will raise My voice up to their point of praise! I see the error; but above The scope of error, see the love."

THE VOGEL COMMERCIAL COLLEGE The Largest, Best and Most Successful Business School In British Columbia. OFFICE WORK AND BOOKKEEPING taught without text books. "You learn by doing." Gregg shorthand, easy to learn and fastest to write.

MEN AND WOMEN. Use Big G for unusual discharges, inflammations, irritations or ulcerations of mucous membranes. Pains, and not astriction or constriction. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for \$1.00, or 5 bottles \$5.00. Circular sent on request.

The Colonist is not the only Conservative newspaper that affects to feel joyful at the prospect of a Dominion general election. The organs are all assuming a cheerfulness of demeanor that is scarcely in harmony with the bitterness of their utterances. Commenting on the dispatches which were sent out from the Tory headquarters in the Montreal Star (independent) office, the Hamilton Times says: "The Mail says we are to have the Dominion general elections on October 12th. That ought to suit the Mail and its friends, who have been, if we are to believe their newspaper mouthpieces, aching to get a chance to appeal to the electors. But there is more of alarm than anything else in the organ's tone."

The proposal that Canadians shall either exercise or forfeit the right to vote is being commented upon in the United States. The idea is generally commended. But it is merely an idea yet, not a law. It will hardly be adopted for a few years.

ATHLETIC SPORTS. To the Editor:—May I beg a few lines of your valuable space for a few remarks on the above subject. The North Pacific Amateur Athletic Association is a new institution formed for the purpose of encouraging to propagate the love for athletic exercises generally, and to secure strictly amateur sport amongst amateurs. It is needless to enlarge on the duties that this association has set itself to do, but I think every one will agree with me that its objects are worthy of every assistance that can be given to it from the outside.

The initial meeting of the association has been undertaken by the James Bay Athletic Association, whose committee is working very hard to make it a success and a credit to the city of Victoria. But something more than committee work is required to insure this. An athletic meeting cannot be a success unless there are good entries for all the events, and a goodly crowd of spectators to encourage the competitors.

So far as entries go it is assured there will be quite a number from other cities, and it would be a crying shame if the city of Victoria does not find a large number of competitors, but it is a sad fact that the young men of this city are very apathetic in this respect. Some say: "It is too much like work." Others say: "It is no use entering, because so-and-so can beat them." To the former I would say that they ought to be ashamed of themselves, and to the latter that everything must have a beginning, and if the other fellow beats them this year, they will have taken life measures, and by giving more attention to training they will be able to give him all he wants next year.

Every young man ought to have ambition to excel in many sports, and now that this association is working to give them the opportunity to gratify that ambition, I hope they will take advantage of it, and that we shall see a large number of competitors from our own city at the coming meet.

I believe that from a spectator's point of view, this meet will be an entire success, and anybody who misses the show will be sorry for it afterwards. To my mind there is no prettier sight than a well-contested amateur race when one knows that the boys are going just as much for the honor and glory as they are for the prize, and that is the class of racing we hope to see at the driving park on the 15th inst.

E. E. BILLINGHURST.

AN OBJECT LESSON. London Times. Lord Lansdowne very justly says that we are not concerned with German motives or with the exact origin of the impulses that govern German action. We have to do with the facts of German policy, and those amount, whatever the motives may be, not only to penalizing a colony which had not added a penny to its imports upon German goods, but also to employing a political deterrent to hinder the closer union of our colonies with the Mother Country. But, at the same time, we must not forget that for ourselves a revolver as good as the German one, the military attitude was dropped, the contemplated further measures against Canada abandoned, and the whole

question argued on deprecatory grounds of injured innocence. That is an object lesson for the country, which is not to be put out of sight by any amount of declamation about the abstract doctrine of free trade. We must have the means of protecting ourselves and our colonies against the operation of scientifically contrived fiscal laws, and, if the weapon should cost us something, so does every weapon needed either in war or in peace.

RESPONSIBILITY. Lytton. No stream from its source flows seaward, how lonely soever its course. But what some land is gladden'd! No star ever rose And set, without influence somewhere! Who knows What earth needs from earth's lowest creature? No life Can be pure in its purpose and strong in its strife. And all life not be purer and stronger thereby! The spirits of just men made perfect on high— The army of martyrs who stand by the throne And gaze into the Face that makes glorious their own— Know this, sure, at last! Honest love, honest sorrow, Honest work for the day, honest hope for the morrow, Are these worth nothing more than the hand they make weary— The heart they have sadden'd—the life they leave dreary? Hush! the sevenfold heavens to the voice of the Spirit. Beho, "He that overcometh shall all things inherit!"

A WOMAN'S VANITY. Pick-Me-Up. Mr. Potts, to his wife: "My dear, the air is chilly. Fermez la fenetre. The visitor, sotto voce:—Why do you ask your wife in French to shut the window? Mr. Potts, ditto—Because you are here. If I asked her in English she wouldn't do it, as she won't take instructions from me before visitors. But if I say it in French she gets up and does it at once, so as to let you see that she understands the language."

DIFFERENCE IN THE OLD DAYS. Baltimore American. "And now," said the inquisitive person, who had been asking all sorts of impertinent questions of the race-hound mountaineer, who sat at his cabin door smoking a corn-cob pipe, "now I will explain to you why I have been so inquisitive. I am a sociological investigator, and I am doing this in the interest of science and humanity."

"How things do change," remarked the mountaineer as he leisurely stretched himself. When I was a boy we called your kind of people dern snoop-nosed meddlers."

RELIGIOUS TOLERANCE. Hartford Courant. What has become of Theologic Hate these days? Still in the world, no doubt, but shrunken and decrepit, like the two giants seen by John Bunyan in his dream, who had let their clubs drop from their feeble, palsied old hands, and could only mumble and make faces at the passers-by. More and more, Christians of every name are coming to feel toward those who differ with them, even the most radically, that comprehending charity which Browning put into words in the poem of Christmas Eve:

"Do these men praise Him? I will raise My voice up to their point of praise! I see the error; but above The scope of error, see the love."

THE VOGEL COMMERCIAL COLLEGE The Largest, Best and Most Successful Business School In British Columbia. OFFICE WORK AND BOOKKEEPING taught without text books. "You learn by doing." Gregg shorthand, easy to learn and fastest to write.

MEN AND WOMEN. Use Big G for unusual discharges, inflammations, irritations or ulcerations of mucous membranes. Pains, and not astriction or constriction. Sold by Druggists, or sent in plain wrapper, by express, prepaid, for \$1.00, or 5 bottles \$5.00. Circular sent on request.

VICTORIA, B. C.
TELEPHONES 425 AND 450.

To Advertisers

During the summer months the Times is published on Saturdays at two o'clock, p. m. Owing to this fact advertisers must have their copy in the hands of the printer before nine a. m., Saturday mornings, and preferably on Friday evenings. The same applies to notices of church services.

City News in Brief.

—Going to Vancouver or Westminster? Take the Terminal railway at 7.00 a. m. daily.

—Go it easy during the summer weather; take time to cool off; buy a Palmer hammock from Weller Bros., and swing yourself to sleep.

—John Taylor's connection with the Taylor Mill Company as manager since its organization was severed on Tuesday last.

—A general meeting of the Veterans' Association, Vancouver Island, will be held in the Pioneer hall on Friday evening at 8 o'clock. A large attendance of the members is particularly requested. The question of having an excursion and other matters will be submitted for approval.

—The funeral of Wm. Crandell took place this morning from the parlors of W. J. Hanna, to the Roman Catholic church. Rev. Father Latour conducted the services. The following acted as pall-bearers: F. Clouston, R. Penketh, Thos. McDowell, J. Hannon, J. Hogan and J. Grady. Many flowers were presented.

—The body of the late Wm. Crandell, who was drowned at Sidney on Sunday morning, was brought to the city yesterday. The funeral will take place this afternoon, the arrangements being in the hands of the Undertakers' Union, of which Mr. Crandell was a member. The verdict of the jury at Sidney was accidental drowning.

—There are quite a number of people now living in Victoria and other parts of British Columbia who took out policies in the Mutual Life of Canada ten or fifteen years ago on the ordinary life plan, and had their dividends applied in reduction of their premiums. They now have the satisfaction of paying a reduced premium lower than men are paying for insurance in assessment companies, and besides they have standing to their credit cash and paid-up values printed in their policies which are available to them at any time, and which are increasing every year, while the premium has been decreasing. Particulars of these can be had on application to R. L. Drury, Provincial Manager, 34 Broad street.

NO. 2 VIEW ST.

—Nothing of importance was transacted at the meeting of the Fish and Game Club last evening.

—Fast steamers for Skagway, Dofphin sails August 7th, 17th and 27th. Humboldt sails August 2nd, 12th and 22nd. E. E. Blackwood, agent.

—A number of invited guests were entertained at Esquimaux last evening by officers of H. M. S. Amphion, which will leave shortly for the Old Country.

—Divide service will be held at Congregation Emanuel tomorrow (Friday) evening at 7.30. Rabbi Montague N. A. Cohen will deliver his farewell sermon. Service Saturday morning at 10. The rabbi will confirm two boys and address them during the service.

—President Creighton and Secretary McConnell, of the Victoria Kennel Club, are gradually completing arrangements for the open air dog show to be held at the Caledonia grounds on August 22nd. The premium list and entry forms will be issued by Saturday. It is the intention to hold a retrieving contest, the competing dogs to be judged not altogether by speed, but according to general efficiency. For the winner of this the Victoria club is offering a handsome silver and leather flask. Endeavors are being made to arrange other attractions, principal of which are races of a novel character and a small trained dog show.

—Little of importance was dealt with at yesterday afternoon's meeting of the board of police commissioners. The chief's report for the month, the substance of which has already been published, was submitted. The fines collected amounted to \$430. He also reported that no complaint had been made against any member of the force. Commissioner Price drew his attention to the report that young girls had been seen at the side entrance to a certain saloon, and the chief promised to investigate. The latter was also granted leave of absence to attend the convention of police chiefs at Portland this month.

—The A. O. U. W. hall was last evening the scene of an excellent entertainment given by the H. M. S. Amphion variety company. Vocally and instrumentally the programme was a great success. Among the features were Mr. Tompkins' descriptive song, "The Famous Jockey," the selection, "The Irish Knockabouts," by Messrs. Eakers and Hooper, and the mandolin and harp quartette by Messrs. Wake-man, Bird, Wellings and Platt, whose selections were well received. Mr. Warner provoked much merriment by his rendering of the comic song, "Barney Roger," given in Devonshire dialect. An amusing sketch, "Handy Sam," by Messrs. Eakers, Glanville, Hooper, and Roszel concluded a very enjoyable entertainment. The entire programme showed that among the handy men on this station there is a great deal of talent of a superior order.

MONEY TO LOAN

At current rates, first mortgage, improved real estate security.

Swinerton & Oddy,

Compound Syrup of Hypophosphites

A splendid nerve tonic and builder. Prepared by

HALL & CO.

Dispensing Chemists, Clarence Block, Cor. Yates and Douglas Streets.

—Thomas Nicholson has been appointed principal of the Wellington schools.

—All kinds of summer requisites at Weller Bros., including filters, refrigerators, fruit jars, etc., at popular prices.

—Mrs. M. R. Douglas laid the corner stone of her son's new residence, Fairfield estate, this afternoon at 3 o'clock.

—The schooner Amethyst was sold at noon today to the Leduc Mercantile Company by Auctioneer Jones. The successful bid was \$250.

—Several cases of infraction of the fire prevention and health by-law were dealt with by Magistrate Hall this morning. Fines were imposed. A couple of drunks were punished after the same manner.

—The remains of the late Harry Gaydon were conveyed to their last resting place yesterday afternoon, the funeral taking place from the apartments of W. J. Hanna. Rev. H. J. Wood officiated, and the pall-bearers were as follows: J. W. Bland, R. W. Savage, Henry Farrell and W. P. Allen.

—James Bell has succeeded Wm. Marchant on the directorate of the King Edward Building Society, the latter being now at Dawson. The second drawing for an appropriation took place on Tuesday evening, and resulted in favor of J. K. Clements, who held share 115, and whose appropriation is \$1,000.

—The minister of education has given his decision in regard to the election some time ago of the Esquimaux school board. The election has been confirmed. As will be remembered, Inspector Wilson conducted an inquiry on Saturday last, when a number of witnesses were examined. The evidence was published in these columns on Monday evening.

—The first case under any of the early closing by-laws will be heard in the city police court on Monday next. A local clothier is charged with an infraction of the ordinance, which now provides that stores of this description must be closed each evening at 6 o'clock. The jeweler's early closing by-law came into effect last evening. Seven o'clock is the hour specified for them.

—W. A. Ward, actor, who has been in the Jubilee hospital for three weeks, died today. The deceased was a well known minstrel, who for about twenty years has been before the footlights. He was about forty years of age, but has never appeared on the stage in Victoria. His funeral will take place from W. J. Hanna's parlors tomorrow at 2 o'clock.

—Word was received by the J. B. A. A. rowing committee yesterday from Astoria, announcing that the Oregon club was willing to pay the expenses of seven men to attend the regatta. It is understood that this proposal will be accepted. The senior and junior four-oared crew will likely be sent, and in all probability some canoeists from this city will also compete.

—The Inverloch Nurseries on Park road, with store at 41 Fort street, have been taken over by Mr. P. T. James, late gardener for the Douglas estate, and are now under his capable management. A choice selection of cut flowers, plants, etc., are in stock, to which your attention and patronage is solicited. Decorative work, floral wreaths and wedding bouquets a specialty.

—While the merry campers at Rose Bank, Esquimaux, were settling off fireworks last evening, about 9.30 o'clock, groans were heard coming from a bluff of rocks close by. Willing hands soon manned a boat and proceeded to the spot from whence the sounds came; when it was found that a sailor belonging to the German ship Columbia had fallen and fractured his leg below the knee. They immediately took the poor fellow to H. M. S. Flora, where he was taken on board and the doctor attended to the broken limb. Great praise is due the officers and men of the Flora for their prompt action and kindness.

—Every day the prospects of the N. P. A. A. meet being an unqualified success are brightening. Entries are beginning to come in rapidly. So far they are principally from the States. Thirty-five have been received, the majority of which are from Portland. A number of individual athletes have entered for as many as six events. From present indications British Columbia will be well represented. Seattle, Spokane and a number of other points have yet to be heard from. It is likely that there will be a number of American and Canadian competitors in each event, so that the fight for honors will really be of an international character.

Make your arrangements to go on the Native Sons' excursion to Tacoma, Saturday, 22nd August, Steamer Princess Victoria. Tickets now on sale, \$3.00; children, \$1.00

A COMPLAINT BY CAPTAIN OF SHIP

Delay in Securing Attendance for One of His Sailors at Marine Institution Across the Harbor.

Capt. H. Schwarting, of the German ship Columbia, which is lying at Esquimaux, to a Times representative this morning strongly complained against the conduct of the Marine hospital as exemplified in his experience last night. About 9 o'clock, he said one of his crew, Reimers by name, broke his leg, and was conveyed to one of the wards lying near where the doctor did all possible to relieve the injured man. The captain, however, was advised to bring the man to the city for treatment, and he was brought to the Marine hospital in a carriage.

Capt. Schwarting said that when he reached the institution about 11.45 p. m., he could not make anything hear until he had knocked loudly on all the doors, when a man came out of a little house adjoining, and the injured sailor was taken inside. Being told that Dr. Davie was the hospital doctor, the captain drove to his house, but he was informed that the doctor was at his office. After leaving a message at the house he went to the office, but the doctor was not in. This morning at 7 o'clock he telephoned to Dr. Davie, and the latter replied that he would attend to the case at once. A couple of hours later, however, his mate came up town and told him that the doctor had not reached the hospital. He then went to Dr. Fraser's house, but the latter was away. In again attempting to get Dr. Davie he learned that he was at St. Joseph's hospital. Finally at 10.30 o'clock he called up Dr. Robertson, and the latter hastened over and attended to the sailor's injury. From a quarter to twelve last night until 10.30 this morning, Capt. Schwarting said, the unfortunate man was lying at the hospital in great agony.

What he complained against, he said, were the conditions which made this possible. Being a stranger, he thought that the only doctor he would be able to have was Dr. Davie, the hospital surgeon. He was under the impression that those in charge of the institution would communicate with their doctor as soon as a patient suffering in this way was admitted, especially in view of the fact that his ship, like all others, was subjected to the charge of two cents per ton for hospital dues. Capt. Schwarting spoke in the highest terms of the kind treatment his man received from the officers of H. M. S. Flora, to which the sailor had been removed.

THE SOUND MAILS.

Daily Service From Victoria to Seattle to Be Inaugurated.

Yesterday afternoon instructions were received by Postmaster Shakespeare to dispatch mails from Victoria to Seattle seven times per week, giving Vancouver direct connection with Seattle once every day. This will mean that a mail will leave the city on Thursday morning's boat for the Sound. Up to the present on Thursday there has been no mail to Seattle, which has caused no end of inconvenience to merchants who wished to communicate with business houses of that city.

Now that the service from Victoria to Sound points is to be made daily, it is thought likely that active steps will be made to have the service from the Sound to Victoria the same.

The telegram containing these instructions was addressed to Postmaster Shakespeare from J. O. McLeod, of Vancouver, the latter acting on instructions from Ottawa. It follows:

Vancouver, B. C., Aug. 5th.

Postmaster, Victoria:

Dispatch mails on Seattle route seven times per week, extra trip being on Clallam Thursday mornings.

J. O. McLEOD.

Headache Relieved Instantly

Got a constant headache? Ten chances to one the secret of your suffering is that "white man's burden," catarrh. Here's a sentence from one man's evidence for Dr. Agnew's Catarrhal Powder: "One application gave me instant relief, cleared the nasal passages and stopped the pain in my head." It's a quick, safe and sure treatment and it never fails to cure. Dr. Agnew's Heart Cure is for heart, stomach and nerve.

Sold by Jackson & Co. and Hall & Co., 24.

VAN HORST TELLS HOW IT WAS DONE

WANTED THE MONEY TO SAVE MOTHER'S HOME

Said Lippy Was Game, But He Had Him, So Up Went His Hands—Will Plead Guilty.

As announced in the Times yesterday afternoon, George Van Horst, well-known in police circles in this city, had confessed to the Seattle police that he was in the hold-up at Leschi Park and in the home of F. S. Lippy, the well-known Klondike capitalist. To a Seattle Times reporter he said:

"We were out looking for a good house to 'tumble,' Lippy looked good and we tried it. We did not know who lived there. I don't know a thing, hardly, about this town. We were at work upstairs when the girl came in. When she came in we held her up. We thought she was the mistress of the house. She was badly scared and she screamed. 'Wasn't it a rather dangerous place for a robbery?' was asked. 'No, sir, a house like that where people are passing by is the best. I'd rather 'tumble' such a place than any other.'"

"Would you have hurt the girl?" "No. There's no use hurting people. I might have choked her if it was necessary. I took hold of her and made her keep quiet."

"While we were at the girl she said that the master of the house would be home soon. I made up my mind to wait for him. I was upstairs again when Lippy came. I heard him at the door. I ran down and into the double door leading into the front rooms. Mr. Lippy is mistaken in some of the things he tells about the way the play came up. It was this way:

"I stood in the double door with the other man behind me. This man and I went to the foot of the stairs. I stepped out, about five feet from him. I held the gun on him and told him to throw up his hands. He showed back his hands. I knew I had him all the time. I always kept my eye on a man. I watched him closely. I told him when to put up his hands. Then when I stepped toward him he put his hands out to fight."

Van Horst's two arms shot out into position as perfectly as those of any boxer.

"I closed in on him," he continued. "I had him all the time. He could do nothing. I struck him, not hard, but the gun was heavy. That gun is no good only for a flash or to 'beat' a man. You have to try to shoot on two or three chambers before it goes off. I picked it up just for what I used it, knowing it was no good to shoot."

"When I struck Lippy—sort of—saw down. He would have come out if the blood hadn't started right away. But when it flowed he recovered a bit. He was game all through, that man, but I had him and he put his hands up."

"How did you come to miss the diamonds he wore?" "The other man bound him. He tied his hands together, palms toward one another. When I tied him and was close to him it was up on the stair-landing in the dark. I did not see the rocks. I would have gotten them if I had."

"No, the man with me was not an old hand. I do not know a crook on this coast. If I did, I'd have been out of this place long ago. But I had to pick up this young fellow and I lost out through that."

"At the Leschi Park hold-up this other man fell down. When I was in the other room with the two men who came in from the launch he let Johnson start the door shut between us, and I couldn't open that door and hold my gun on those two men at the same time. That other man was with me when the policeman started for me. I saw the boy from the lake tip us off. I did not run upstairs for this gun, as I knew it was no good for shooting. If it had not been for the fact that I have my folks to think of, I would have been carrying a gun. Then it would have been different."

"If it wasn't for my folks I would be as good as a crook as walks. I can go strong if I want to."

He said this so quietly that it was a little hard to catch his words. "I am a pretty good runner at times. I have been crippled with rheumatism; that is one reason why I got caught. Then I slipped in that alley. I had to quit work at the lake because of that rheumatism. It had my back all used up. After I quit work I wanted to get

disadvantage—eliminated altogether. You will note, first, that the steamer itself is of the ocean type, only more comfortable; second, that the trip is three days long, which affords time for a complete rest; third, apart from the fact that a round trip from New York city to Duluth with six days' steaming, can be made between Saturday morning and the following Saturday night. * * *

The emotion of surprise in its ultimate degree is susceptible of change into other emotions. To find the bell-boys for cabin stewards' attentive yet unobtrusive, the waiters courteous and painstaking, the ship's officers genial and communicative, the purser a gentleman, and a diplomat of the first water, the cooking absolutely first-class, the staterooms clean and cool—and all this with the other advantages—must be forgetting it enough to arouse the ire of a man who only finds it out after it has been available nine years. * * *

The steamship Northwest sails from Duluth for Buffalo and intermediate points every Tuesday at 11.30 p. m.

PASSENGERS.

Per steamer Champlain from Vancouver: E. H. Plagier, Geo. McMillan, Jno. McMillan, H. Harris, Miss Pennington, Mrs. G. George, Mrs. Wanghams, Miss Waughams, Miss Tomlinson, Mr. Plaxton, Mr. Atkinson, Miss Dickinson, Miss Pearson, Mrs. R. E. Doran, Mrs. White, Mrs. White, Miss M. Davis, A. W. Vowell, Mrs. Robertson, L. J. Bosworth, T. Vinery, Dr. Tolmie, Mrs. Whittington, W. A. Clayards, Mrs. Gibson, F. W. Madge, H. Faber, Miss White, G. R. Inglis, C. W. White, E. H. Walsh, E. H. Davis, S. A. Holland, L. L. Tregeiler, L. E. Choler, G. O. McKenney, N. Shaffer, D. O. Robbins, Mrs. Vinery, Miss May-Smith, J. Stimpson, Steven Baker, H. Baker, L. Hunter, Jno. Sinclair, D. Walters, W. A. Lawson, H. Chapman, Mrs. Dixon, Mr. Dixon, J. S. Reed, D. Snellien, J. Walsh, S. McClintock, Mrs. Watson, T. H. Watson, D. J. Mann, L. Oimstead, H. McVoy, Mrs. McVoy, C. W. Kennedy.

Per steamer Majestic from the Sound: Mrs. Terry, Mrs. Troy and daughter, G. V. Reas, C. S. Scott, wife and son, Mrs. Reas, Mrs. Brown, Miss Brown, Mrs. Kiskling and sister, Mrs. Evans, J. C. Scott, Miss Palmer, Mrs. Matthews, Miss Hamilton, J. L. Lippie and son, H. Hornum, Mrs. Hornum, Mrs. Ashley, Mrs. Rogers, S. Bridges, C. D. Lorie, W. Wincock, wife, A. S. Wheeler, C. D. Maybrook, A. D. Willis, wife and son, J. C. Ford and wife, J. C. Ford and daughter, Mrs. Watkins, Miss Hoskins, Miss Kinney and sister, R. S. Ford, wife and daughter, Mrs. Terry, J. S. Henry, Miss Moore, J. Lindsay and wife, A. Harder and wife, J. Winterwood and wife, Miss Brown, Mrs. David, Mr. Newman, P. Storey, C. Butler and wife, J. S. Gervay and wife, R. C. Helm and wife, Miss Foster and mother, A. C. Elliott.

Per steamer Champlain from the Sound: Jas. Martin, R. Bedford, Miss Johnstone, A. B. Hamer, Mrs. J. B. M. Knox, Miss Knox, Mrs. W. D. F. Edwards, Miss Edwards, R. Wingate, H. Clark, Mrs. H. Clark, Mrs. Gilchrist, Miss Gilchrist, Anton Sundon, Mrs. Sundon, Miss Sundon, E. L. Bishop, Mrs. E. L. Bishop, E. H. Bell, W. G. O'Laughlin, Capt. H. M. Lloyd, J. Moss, F. F. Smith, Mrs. Matthews, E. J. Palmer, Mrs. Brewster, Mrs. A. DeLaney, Miss DeLaney, Mrs. McScragan, Mrs. F. A. Scragan, Mrs. McScragan, J. A. Whittier, Geo. Leitch, J. L. Beckwith, N. S. Clark, Max Czucka, Mrs. Max Czucka, H. G. Walker, J. Gaudin, Mrs. Fraser, Donald Fraser, S. G. Walker, D. Herbert, Mrs. Strubberg, Felix Hughes, H. G. McMillan, A. Johnson, L. J. H. Worden, W. Schroeder, P. Kennett, Miss Kennett, E. Kennett, A. Dangleberg, C. Dangleberg, F. A. Peterson, E. A. Ramage, W. Harper, R. Raga.

31	5:24	24.3				

The time used in Pacific standard for the 120 Meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The height is in feet and tenths of a foot. For time of high water add 14 minutes to H. W. at Victoria.

Equalized at Dry Dock—From observations during six months, May to October, compared with simultaneous observations continued at Victoria by Mr. F. N. Denison.

Zero of above heights corresponds to 11 feet in the fairway of Victoria harbor.

ONE-COMMON CAUSE OF HEAD-ACHE.

Perhaps the most general cause of headache and pain across the eyes is nasal catarrh. The simplest cure is to inhale the medicated vapor of Catarrhine which traverses every air cell and air passage of the throat, lungs and nose. It kills myriads of germs at every breath, clears away mucous discharges, preserves and heals the membrane. Catarrhine is just a splendid remedy for headache, and its action is certain and unfailing in disease of the Throat and Lungs, Deafness, Bronchitis, Asthma and Catarrh. A trial will convince the most sceptical that Catarrhine is all right. Large size, \$1.00; trial size 25c. Drugists or Polson & Co., Kingston, Ont.

Dr. Hamilton's Pills Cure Constipation.

James Roberts, one of the band of escaped convicts from the Folsom prison, has been captured. He was dressed as a tramp.

The Two Archers.

Love and Death are both depicted as archers. When Love sets his arrow in a woman's heart and she turns and follows, the healing of her hurt, could there be aught sadder than that she should be led by very Love into the ambush where Death, arrow on string, waits to plant his deadly shaft in her breast? Yet so it is. Time and again Love proves to be Death's decoy. And often when the grim archer fails to inflict mortal hurt, he leaves the suffering woman to creep through life like a broken-winged bird.

Why does love lead to suffering? Many a woman has asked that question fondly and passionately. She has forgotten father and mother to cleave unto her husband in the belief that love was achieving woman's highest happiness. But instead of happiness she has found misery, struggled with it until struggle seemed useless, and at last has come to accept her misery as the "cross" laid upon some woman who had no choice.

There is no real reason why almost every wife and mother should not enjoy sound health. The causes of her misery lie in diseases which affect the delicate, womanly organism. Disagreeable drams are carrying away the vital force. Inflammation has lighted its fire for slow torment. Catarrh is eating into the tender tissues. Female weakness is making life a daily martyrdom. Is it any wonder that the nerves are racked, that appetite fails, and night, which should bring rest, brings only restless and troubled dreams?

Dr. Pierce's Favorite Prescription cures the womanly diseases which underlie the general health. It dries the drains, puts out the fire of inflammation, heals the ulcerated tissues and cures female weakness. In a word, it makes weak women strong and sick women well. "Favorite Prescription" is a true temperance medicine. It contains no alcohol, neither opium, cocaine, or other narcotic. Sick and ailing women are invited to consult Dr. Pierce by letter, free of charge. All correspondence strictly private and sacredly confidential. In a little more than thirty years Dr. Pierce, assisted by his staff of nearly a score of physicians, has treated and cured over half a million women. Write, without fear or fee, to Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

HAD GIVEN UP HOPE.

"It is with feelings of sincere gratitude that I again write to you," says Harry A. Brown, of Duluth, Minnesota. "I was in a terrible condition when I wrote you in June, and you advised me to take your Favorite Prescription and Golden Medical Discovery. I did according to direction, and continued taking them for five months. I took nine bottles of 'Favorite Prescription' and six of 'Medical Discovery,' and four bottles of Dr. Pierce's Pellets. My disease was displacement and ulceration of the uterus, and I was in a terrible condition with pain and weakness, and had given up all hopes of ever getting well again. Had doctors with four different doctors within four months and instead of getting better was growing weaker all the time. I decided to try your medicine, as I had heard of the many cures of women and men. I bought five bottles and felt so much better after using them that I kept on until I am as well as ever in my life, and to Dr. Pierce all the praise is due."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of stamps and mailing only. Send 31 one-cent stamps for the paper-bound book, or for cloth binding send 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

COSTLY PERFUME.

The trouble in the Balkans is having one curious effect; it is sending up the price of the delicate perfume known as attar of roses. The scent is now being retailed at two guineas an ounce, and it is anticipated that in a month's time that quantity will not be purchasable in London under three guineas.

The making of attar of roses is one of the staple industries of the principality of Bulgaria. The principal gardens are at Kozanlik, and extend for forty miles in the valley of the Maritza. These wonderful and priceless gardens have more than once been the scene of bloodshed. There the worst of the Turkish atrocities were committed which in 1876 led to the abrogation of the Anglo-Turkish alliance. Now Bulgarians at Kozanlik are once more deserting their peaceful and poetical occupation of perfume-making in order to shoulder the rifle, with the result that attar of roses is growing scarce in Belgrad.

Under normal conditions the rose extract is almost as precious as liquid gold. In the making of one ounce one and three-quarter hundredweight roses are used. Bulgaria exports two and a half tons of attar of roses annually, representing a consumption of 8,000 tons of the flower.

Cook's Cotton Root Compound.

Ladies' Favorite. Is the only safe, reliable regulator on which woman can depend. Take on the hour and time of need. Prepared in two degrees of strength, No. 1 and No. 2. No. 1—For ordinary cases is by far the best dollar medicine known. No. 2—For special cases—10 degrees stronger—three dollars per box. Ladies—ask your druggist for Cook's Cotton Root Compound. Take on the hour as all pills, mixtures and imitations are dangerous. No. 1 and No. 2 are sold and recommended by all druggists in the Dominion of Canada. Mailed to any address on receipt of price and four 2-cent postage stamps. **The Cook-Windsor, Ont.**

No. 1 and No. 2 are sold in all Victoria drug stores.

A Misunderstanding

The directors of the Rosella Hydraulic Mining Co., charged with disloyalty to the people of Victoria, because they did not sell their 25c. stock in this city in place of New York.

Victoria people would not look at our stock before we placed it in New York. The New York people purchased 120,000 shares in three weeks.

The fact that Handell & Pike on an adjacent property, not nearly as rich, are taking out \$750 per day has opened the eyes of our people. They begin to realize there is something in our statement. "We will take from our property \$1,000 or more per day as soon as our plant is in operation."

Now, to satisfy Victoria people we will offer

50,000 Shares at 25c

Payable quarter down, balance 25 per cent. per month.

This will be the last chance in B.C. to make a fortune from a small outlay. Over \$300,000 in sight, is the report of an expert who has examined the property. If you miss the chance now don't blame the ROSELLA HYDRAULIC CO.

CHAPTER II.

What Breakspear Found in the Portmanteau.

When Jim Breakspear was a little boy, and had climbed up on Christmas morning to take down from a high, old-fashioned mantelpiece the strangely-bulging stocking which Santa Claus had filled in the dead watches of the night, there had scarcely been a keener thrill of curiosity and anticipation in his finger-tips than now when he opened the black portmanteau.

Would he, in another moment, be annihilating himself as a fool, or congratulating himself on a stroke of luck? One side of the portmanteau was closed with a stiff flap fastened into place with leather straps and buckles. There, before Jim turned his attention to the part that was open, at first sight, its contents were disappointing.

They consisted of an overcoat, half-lined with astrakhan, and having a collar of the same. Once the garment had been as expensive as it was—showy, but now it would scarcely fetch as many shillings as it had originally cost. The pockets—which Jim examined with a queer quiver of compunction—were empty, and he had tossed aside the coat in disgust when his eye was caught by a spot of color on the lining which was torn in several places. This spot was nothing more nor less than a Maltese cross formed of two pieces of bright blue ribbon, carefully sewn into the lining in such a position that it would nearly have covered the heart when the coat was worn.

Again the Maltese cross! Jim could not understand its significance, unless it was a member of the portmanteau had been a member of the brotherhood to identify themselves by the display of a Maltese cross.

Besides the overcoat, in this first side of the portmanteau were a few articles of underclothing, and lastly, an assortment of folding maps. These Jim opened one after the other, and decided that they must have been torn from volumes of Baedeker. There was Corsica, there were the Greek Isles, there was Hungary, and on each map, at a certain spot, was a small Maltese cross neatly drawn with a blue pencil.

None of these things were interesting in themselves; yet Breakspear's curiosity was pricked further with each discovery, and there was a betrayal of excitement in his quick unbuttoning of the straps which closed the other side of the portmanteau.

The first thing he saw was the costume of a male peasant of the country round Naples, such a costume as is worn offensively nowadays by itinerant musicians who play at hotels than by the peasants themselves. Under this were other peasant costumes; one Hungarian, a second which Jim took to be German, and a Bedouin cloak, with a Bedouin's peculiar roped headress. Inside the breast of each of these was sewn a blue silk Maltese cross.

Jim ardently wished that he had been gifted with the instinct of a detective. If he were, a hair's-breadth from the mind of the problem which he began mentally to call the problem of the Maltese cross. But being only an ordinarily clever young man, who had made as little use as possible of his University education, who had loved hunting and cricket, and football more than cryptograms, and had never had a mystery in his life till to-day, he felt incredibly stupid. Two and two refused to be put together in a way to make four, but he had not yet quite come to the end of the "prize package." Now that all the clothing was out there on the floor, he still left a small, round wooden box of Italian make, and a paper parcel of rather peculiar shape. In either one of these might be found an explanation of the mystery.

Breakspear took out the parcel, which looked as if it might contain an unusually large melon cut in half. Off came a layer of brown paper to show another of white underneath. Within was an old soft damask napkin, with a initial and a crest embroidered in one corner, and before he had quite removed this Jim gave vent to an exclamation.

Had he been a nervous woman, he would probably have dropped the contents of the carefully-wrapped parcel and broken it in a dozen pieces, for it was of an exceedingly perishable nature. As it was the faint emanation was the only expression of his emotion.

At first sight he thought that he held in his hand merely a peculiarly horrible plaster model of a face. But, knowing something of the subject, a longer look told him that the thing which had fallen into his possession was a death-mask—a death-mask taken from the face of a person who had died in anguish.

Jim Breakspear had a friend who was a sculptor, and from this friend he knew how, grease having been spread upon the features of the dead to prevent the skin being torn away by the hot plaster, a mould is taken; later, the mould is filled with more plaster, and the original being removed, the model of the face remains with each feature exact.

"The proof that this cast had been taken in this way was a gruesome one, for the hairs of the eyebrows, many of the lashes, and the delicate, almost imperceptible down which had grown on cheeks and forehead, pulled away by the mask, had rooted themselves in the plaster with grim effectiveness. Two or three hairs in the eyebrows had grown longer than the others and hung down over the horrible, half-open eyes with their straggling lashes. The written lips were parted in a grin of agony, showing the shape of the teeth. On one cheek was a mole with three great stiff grey

Hardly any rubbing with Sunlight Soap. The Sunlight Maids say it's child's play.

SUNLIGHT SOAP

Will wash anything, but to secure best results, with least labor, should be used in the Sunlight way. First dip the articles to be washed in a tub of lukewarm water and draw it out of the water on a wash board and rub the soap over it lightly. Then roll them up tightly and lay under the water. Leave them there for thirty minutes and let Sunlight Soap do its work. Commence rubbing the clothes lightly on the wash board and the dirt will drop out. Turn the garments inside out to get at the seams but don't use any more soap. No need to scald or boil a single piece and don't wash through two suds. Rinse in lukewarm water taking care to wash out all the dirty suds, then ring out and hang out to dry. That's the Sunlight way. It makes the clothes snowy white.

ASK FOR THE OCTAGON BAR

Sunlight Soap washes the clothes white and won't injure the hands.

LEVER BROTHERS LIMITED, TORONTO.

PROVINCIAL NEWS.

VANCOUVER.

A meeting of local retail merchants was held in the rooms of the Employers' Association on Tuesday evening with the object of considering the advisability of forming a Retailers' Association for the purpose of promoting the interests and conserving the rights of the retail merchants of the city. A. E. Lewis presided over the meeting. A. E. Good man being appointed secretary pro tem. It was decided to organize an association which should have the following as its aims and objects: 1. To safeguard and promote the interests of the various retail merchants throughout the city. 2. To have the retail trade of the city confined to the legitimate retailers. 3. To enforce the Transient Traders' Act and take measures to regulate the system of peddling on a fair basis. 4. To induce the public in every way to patronize local merchants and to purchase goods of local manufacture. 5. To promote a better feeling among the merchants of the city and to work together for the advancement of the commercial interests of the city. It was arranged to call a general meeting of all interested at an early date, at which the objects of the association will be clearly set forth and steps taken to complete organization and elect officers.

The Tourist Association rooms were crowded with children, and perfumed with flowers on Tuesday. The occasion was the first annual exhibition of flowers grown by the public school children of the city and the awarding of prizes to the most successful juvenile amateur gardeners. The competition was instituted this year by the Tourist Association with the cooperation of a school board. The former body caused packets of flower seeds to be distributed among the school children and offered prizes for the best bouquets obtained from the cultivation of these seeds and entered in the exhibition held. In all some 77 bouquets were sent in. Master Dean Buzzelle, a pupil of the Seymour school, received the first prize of a \$5 gold piece, presented by Charles Nelson. The second prize, donated by W. B. Saunders, the Hastings street jeweller, was captured by Miss Dorothy Maitland, of the Dawson school, while Miss Gracie Smith, of the Central school, carried off the third award of \$2, presented by F. J. Proctor. The fourth prize, given by A. J. Baxter, secretary of the Tourist Association, went to a Fairview horticulturist, Miss Edna Wildauer. A bouquet sent in by Miss Beatrice Nelson, but not cultivated for competition, was given special honorable mention.

The Provincial Licensed Victuallers' Association met yesterday at Vancouver. Representative liquor dealers from all over the province were present. The officers elected were: President, A. Von Rhein; Equilibrium, first vice-president, H. T. Lockyer, manager Hudson's Bay, Vancouver; second vice-president, H. Lee, Stevenson; secretary, C. C. Tilley, Grand Forks; treasurer, N. Nelson, New Westminster. Delegates were present from Victoria, Nanaimo, Westminister, Stevenson, Grand Forks, Nelson and Vancouver. The next meeting will be held October 1st at Vancouver.

FERNIE.

Three cases of carrying matches into the Coal Creek mines were tried in the police court recently. Andrew Lasco was found guilty of this offence before, and when he was being searched this time he managed to get rid of the matches by throwing them behind him, where they were found. He was given a month in jail. On Thos. Nelson only one match was found. He was not a smoker and pleaded that he was wearing another man's overalls. He got off with a \$5 fine. A pipe was found on Victor Lamot, but no matches, and he was allowed to go. Stipendiary Magistrate Forbes and Chief McMillan went to Michel to try a number of men charged with carrying matches or pipes into the mines. There were eleven cases altogether. One could not be found and four others, charged with carrying pipes only, were dismissed. The other six pleaded guilty and each were fined \$5 and costs.

The mines for the month ending July 31st show a steady increase over all previous months, notwithstanding the serious interruptions caused by holidays during the month. It is estimated that had there been no break the total coal

output would have been 10,000 tons greater. The figures for the camps are as follows: Coal Creek, 24,793 tons; Michel, 28,560 tons; Morrissey, 18,100 tons; total, 71,453 tons. The coke shipments for the month were as follows: Fernie, 8,000 tons; Michel, 7,839 tons. This is slightly in excess of any previous monthly shipment.

NELSON.

Negotiations are under way between the Juno and Venus mining companies to run an upraise from the No. 2 tunnel on the latter to the main tunnel on the Juno. This will give the latter property access to the tramway terminal so that their ore can be handled for about a dollar a ton from the mine to the Athabasca mill. Both properties are showing up very well and a successful season's operations are assured. On the Juno a shaft has been sunk for 300 feet on the main lead, which is four feet wide at the surface and 100 feet down the shaft. Adrift has been run on the lead for 100 feet and is on solid ore all the way. At the surface the lead is even wider than at the surface, and the foot and hanging walls are clearly defined. The rich pay streak which was struck on this property a fortnight ago was encountered 100 feet east of the main shaft, and has since been traced there.

NEW WESTMINSTER.

About 2:45 on Tuesday afternoon, while the chain-gang was at work, two prisoners tried to make their escape. They bolted up Sixth avenue to Tenth street, being followed in hot pursuit by Guards Kelly and Burr. The fleeing men finally turned up Eleventh avenue, and ran till they came to some bushes, where they tried to hide themselves. Mr. Kelly had to guard the rest of the prisoners, so Guard Burr and Mr. Haldy took up the chase. The men were captured.

KAMLOOPS.

Col. Holmes, D. O. C., will be here on the 11th to inspect the K. D. R. A. arms and range.

Hobbled Six Years With Rheumatism

THE REMARKABLE CASE OF MR. CULLEN, A CHRONIC SUFFERER, WHO WAS CURED IN SIX WEEKS BY

Ferrozone.

Mr. Cullen, of Sturgeon Bay, writes: "For six years I hobbled about like a cripple, unable to move without crutches and canes. I used quantities of medicines, and special baths, but they didn't help me very much. 'On the advice of a Presbyterian minister I used Ferrozone, gave it a good trial at first, and when I saw it was helping, I bought six boxes and took one tablet at the close of each meal. I am perfectly cured, and am to-day as spry as a youngster of ten. I am convinced that my recovery is entirely due to the marvellous action of Ferrozone.'"

Mr. Cullen's case is a fair example of the kind of cure that Ferrozone is offering every day. In severe cases of Neuralgia, Sciatica, Rheumatism and Lumbago, it acts with surprising alacrity, and no case is recorded where it failed. Ferrozone cures these diseases because it is a solvent for uric acid in the blood. Then it builds up and invigorates the system, and makes weak, sickly people strong and well enough to resist and ward off disease.

The best Rheumatism remedy is Ferrozone. It relieves quickly, and cures so perfectly that the disease never returns. After all other remedies fail, it cures, and that is the sort of medicine you want. Price 50c. per box, or six boxes for \$2.50. Sent to your address by mail if price is forwarded to The Ferrozone Company, Kingston, Ont.

Phil May, the artist and illustrator of Punch, the Graphic and other periodicals, is dead.

A.B.C. BOHEMIAN

Pure, Pale and Sparkling. Bottled Only at the Brewery in St. Louis.

NOTICE.

Notice is hereby given that I intend to apply to the Licensing Board at its next sitting for a transfer from Thomas Hindmarsh to me, of Victoria, of the license held by him to sell wines and liquors by retail upon the premises known as the "Pioneer" Saloon, situate on the northwest corner of Constance and Store streets, in the City of Victoria.

Dated this 4th day of August, 1903.

HELEN HINDMARSH, Executrix Estate of Thomas Hindmarsh, Deceased.

JOHN MESTON

Carriage Maker, Blacksmith, Etc.

BROAD ST., BETWEEN PANDORA AND JOHNSON.

"SALADA"

Ceylon tea contains no added coloring matter or adulterations so often found in inferior teas. Sealed airtight packets only. Black or natural green. 40c., 50c. and 60c. per lb. By all grocers.

Sunshine Furnace

No need to worry about coal strikes if your home is heated with a "Sunshine" Furnace.

By placing our patented wood grate over the coal grate it will burn wood or coke and give as perfect satisfaction as with coal—also saves starting a coal fire in spring and fall when a wood fire will take the chill off the house in a few minutes.

Feed doors are double and extra large—will admit rough chunks. Radiator is made of heavy steel plate and encircles the dome in such a way that it leaves a wide space between the two for the circulation of air and gives an immense radiating surface.

The "Sunshine" is the only Canadian heater which will burn coal, coke or wood with entire satisfaction.

Sold by all Enterprising Dealers. Booklet Free.

Tenders, sealed, endorsed "Tenders for Water Pipes," and addressed to W. W. Northcott, purchasing agent, will be received up to 3 p. m. on Monday, the 21st day of September, 1903, for the supplying of certain cast iron water pipes, of the specification, copies of which can be obtained at the office of the undersigned. The lowest or any tender not necessarily accepted.

WM. W. NORTHCOTT, Purchasing Agent.

City Hall, 20th July, 1903.

NOTICE.

All mineral rights are reserved by the Esquimalt & Nanaimo Railway Company within that tract of land bounded on the north by the south boundary of the Esquimalt District, on the east by the Straits of Georgia, on the north by the 6th parallel, and on the west by the boundary of the E. & N. Railway Land Grant.

LEONARD H. SOLLY, Land Commissioner.

NOTICE.

The undersigned will not be responsible for any debts contracted in his name, or on his behalf, unless incurred by himself personally or with his written order. Dated this 20th day of July, A. D. 1903. T. J. M. PETER, Lion Saloon, Chambers Street, Victoria, B. C.

NOTICE.

Notice is hereby given that I have this day purchased the good-will and business heretofore carried on under the firm name of J. Boscowitz & Sons, as merchants dealing in furs, on the premises at the southeast corner of Yates and Wharf streets, in the City of Victoria, and that I will continue to carry on business in the same premises and under the same firm name, but on my individual account, no person being associated with me in the said business as a partner. Dated this 27th day of July, A. D. 1903. DAVID A. BOSCOWITZ.

IN THE MATTER OF THE ESTATE OF JOHN HENRY JONES, DECEASED, INTERSTATE.

Notice is hereby given that all persons having claims against the estate of the above named John Henry Jones, deceased, who died on or about the 21st day of July, 1903, at Lake District, British Columbia, are required on or before the 21st day of September, 1903, to send by post prepaid, or deliver to Ella Jones, administratrix of the estate of the said deceased, at the office of Higgins & Elliott, Law Chambers, Bastion street, Victoria, B. C., full particulars of the claims, duly verified, and the nature of the securities, if any, held by them.

Notice is further given that after such last mentioned day the said administratrix will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which they will then have notice, and that the said administratrix will not be liable for the said assets or any part thereof to any person or persons of whose claim notice shall not have been received at the time of such distribution.

And notice is further given that all persons from whom moneys were due to the said John Henry Jones on or before the said 21st day of July, 1903, are required to pay the same, if not already paid, to the said administratrix within the period above mentioned. Dated the 31st day of July, 1903. ELLA JONES, Administratrix.

Parquhar beat Patton 7-5, 5-7, 6-4.

SIR JAMES HECTOR ON THE AORANGI

HE IS ON HIS WAY TO BANFF SPRINGS

The Discoverer of Kicking Horse Pass Will Spend a Holiday in Canada.

The R. M. S. Aorangi arrived from Australia and New Zealand this afternoon after an uneventful trip. She had about 150 first class passengers on board. The Aorangi was delayed somewhat by a thick fog which was encountered yesterday.

Among the many passengers on board were of such interest to British Columbians as Sir James Hector. Sir James is now seventy years of age, but is still deeply interested in geological researches. It was in his capacity as a geologist that he discovered the Kicking Horse Pass in the Rocky Mountains, which has been utilized by the C. P. R. in making its way into British Columbia.

Mount Hector in the Rockies commemorates the visit of this geologist and explorer to Western Canada.

Interviewed today on board the Aorangi, Sir James became reminiscent of his explorations throughout Canada. It was in 1857 that he discovered the Kicking Horse Pass, and an accident which led to the name still affects him.

He was kicked by a horse belonging to the expedition party and believed by the remaining members to have been killed. His grave was dug in the pass and preparations were being made for the interment of the body when signs of life were shown. Thus was Sir James snatched from the grave.

He was sent out to Canada by the Colonial office to report upon the character of the country, which was then being left to the Hudson's Bay Company as fit for nothing but the fur trade.

For four years he was engaged in exploring from Lake Superior westward. Sir James discovered the riches of the western prairies and the mountains, and by his report did much to awaken an interest in the country.

As he himself says, he was the inventor of the phrase "fertile belt," which has ever since been used in describing the North-west grain lands. He visited the Peace River valley and reported upon its richness. He also explored through the northern portions of British Columbia, as well as the more southern part, through which the C. P. R. now passes.

Vancouver Island was also traversed by him and he piled his interviewer this afternoon with all kinds of questions regarding the development of its resources.

"Have they ever found the coal on the west side of the Island yet?" he asked.

"Well, it is there; I have samples of it I gathered myself," he continued.

Since 1861 Sir James has been director of the geological survey of New Zealand.

He is on his way now, accompanied by his son, to spend a few weeks at Banff.

THE SALMON SITUATION.

The catch of salmon in the Gulf and the Fraser continues to improve somewhat, but the run seems to be a very intermittent one this season. On the Skeena during the first part of the season there was a very poor supply of salmon. Later a change took place, and the run improved considerably, and fishermen were feeling encouraged. This has fallen off and a poor run is again reported.

EXTENDING OPERATIONS.

The Western Canada Fish Company, of Vancouver, with their drying plant at Barnet, have purchased the schooner Eva Marie. She will fish halibut, black cod and any other marketable fish for the chartering company, off Cape Flattery.

Besides the Binkley, which is in the Reining Sea after a cargo of grey cod, the Canadian Fish Company has the Lulu, the Hesperus and the Hyacinth, bringing fish to their big drying plant at Barnet.

MARINE NOTES.

The British steamer Tottenham, lumber laden, from Portland and Astoria, is taking on bunker coal on the Sound preparatory to leaving for the Orient.

Queen City will leave tomorrow evening for Aboussait and way ports.

The British ship, Chelmsford, with 3,750 tons of coal, the Matterhorn, with 2,000 tons, and the German ship Siam, with 2,541 tons, have arrived in San Francisco from Newcastle, Australia.

The American schooner W. H. Talbot, which is discharging sulphur for the Chemical Works at the ocean dock, will load lumber at Vancouver for Sydney.

The French bark, Pierre Antoine, has arrived at Port Townsend. She is the first grain ship of the season 1903-4 to load on the Sound. She will load at Tacoma.

The Gedney, Capt. Dickens, one of the

Goods That Are Pure

COWAN'S

Perfection Cocoa,

Royal Navy Chocolate,

Cake Icings,

Chocolate Cream

Bars, Etc.

The Cowan Co., Ltd., Toronto.

coast survey schooner of the United States, arrived in port this morning from the Sound. She is expected to leave this evening for Sitka.

The Danube will leave this evening for Naas and way ports. She carries considerable freight for the north, the Hudson's Bay Company shipping a good deal by her.

IN THE GOOD OLD SUMMER TIME

Everybody suffers more or less from cramps, stomach pains, headache and should have a bottle of that good family remedy, Dr. Williams' Pink Pills, always on hand.

Just a few drops of Nervine in sweetened water makes a pleasant invigorating drink," writes E. A. Allen, of Swansea. "It's just splendid for stomach and bowel troubles and stops summer complaint at once. In our house we use Nervine for the pains and aches of the whole family and seldom need the doctor because Nervine is always handy." Sold in large 25c. bottles everywhere.

PERSONAL.

Bernard McEvoy, the well known Canadian writer, arrived in the city last night. Readers of the Times will remember his visit to Victoria last fall, which was followed by a series of entertaining articles in the Eastern papers, some being reproduced in these columns. Since November he and Mrs. McEvoy have been in Vancouver, where their son is practicing law.

While here Mr. McEvoy intends to collect data for additional articles.

G. R. Hughes, of Kansas City; W. D. Creighton, of San Francisco; P. L. Green, of Seattle; and Wm. Miller, wife and son, F. W. Thackeray and Mrs. Thackeray, and Miss Ella Kinley, of Grinnell, Iowa, are among the tourists making their headquarters at the Victoria hotel.

Chief Justice Sifton, of Alberta, Mrs. Sifton and Miss Sifton, are visiting the city. They are guests at the Grand Hotel. Justice Sifton is a brother of Hon. Clifford Sifton, minister of the interior.

Harry B. Shackleton and H. H. Taggart, of England, who have been spending some weeks at Cowichan, returned yesterday and are guests at the Dominion hotel.

L. J. Rosewitz, E. E. Welsh, W. A. Lawson and H. Chapman were among last night's arrivals from the mainland.

A. I. Belya, K. C., left on a trip to Alaska this morning. He expects to be absent about a month.

J. L. Beckwith, E. J. Palmer and N. S. Clarke came over from Seattle this morning by the Chatham.

James Dunsen has returned from a visit to Cumberland, Extension and Lady Smith.

Capt. H. H. Lloyd was among this morning's passengers from the Sound.

A. W. Vowels, an Indian agent, returned from Vancouver last night.

W. W. R. McInnes is in the city. He is at the Vernon hotel.

James Maitland Dougall, of Duncan, is at the Victoria.

RETAIL MARKETS.

There are few changes this week in the market quotations. Flour of all grades has advanced to per cent. Local farmers are bringing in small consignments of excellent Oregon Grapes which have been received by local merchants and are retailing at about four pounds for 25c.

Rock Cod, per lb.	8
Bass, per lb.	8

CREMATION.

Cremation has been practiced by most of the nations of the earth from the earliest ages, and although in pagan countries it may have taken the form of fire worshiping there can be no doubt that its adoption by the ancients was for the most part prompted by other than religious reasons. Greeks ascribe its introduction to Hercules, who having sworn to transmit the body of Argus to his father, thought this the most convenient way of fulfilling his promise.

According to Homer, the burning of the dead was a common practice among the Greeks long before the Trojan war, but the earliest record of it is among the Scythians, who inhabited the vast region known under the name of Tartary.
